## Subject index\*

### A

- Abdominal surgical procedures, incidence of, in population undergoing abortion (King, Atienza, and Burkman), 530
- Abortion, artificial second-trimester, improvement in, with new tissue-selective prostaglandin E<sub>2</sub> derivative (Schmidt-Gollwitzer et al.), 867 (Comm. in brief)
- incidence of abdominal surgical procedures in population undergoing (King, Atienza, and Burkman), 530
- midtrimester, by dilatation and evacuation versus intra-amniotic instillation of prostaglandin F<sub>2α</sub>: Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- spontaneous, increased incidence of renal stones in women with: Retrospective study (Honoré), 145 (Comm. in brief)
- Abscess, periclitral, vulvar ectopic breast tissue mimicking (Reeves and Kaufman), 509 (Comm. in brief)
- Academia, for: Bill of particulars (Miller), 635 (Clinical opinion)
- Acid(s)-base characteristics of fetuses with intrauterine growth retardation during labor and delivery (Lin et al.), 553
- bile, serum concentration of, in maternal blood and cord blood at parturition (Demers and Darnell Jones), 146 (Comm. in brief)
- Address, an (Shulman), 155
- Adenocarcinoma, cervicovaginal clear cell, diethylstilbestrol-exposed monozygotic twins discordant for (Sandberg and Christian), 220
- Adenomas, prolactin-secreting pituitary, results of surgery in 114 patients with (Domingue, Richmond, and Wilson), 102
- Serum and tissue prolactin levels with ultrastructural correlation (Archer et al.), 646
- Adolescent(s), attitudes of, toward pregnancy and contraception (Ryan and Sweeney), 358
- contraceptive use: Experience in 1,762 teenagers (Edwards et al.), 583
- Adrenal cortical function, comparative study of effect of oral contraceptives containing 50 µg of estrogen and those containing 20 µg of estrogen on (Amin et al.), 831
- gland, anencephalic, morphologic features of, in early pregnancy (Gray and Abramovich), 491
- pituitary-, function in women treated with low doses of prednisone (Fujieda et al.), 962
- Aerobic and anaerobic flora of female genital tract, quantitative and qualitative effects of povidone-iodine liquid and gel on (Monif et al.), 432
- Age, fetal, and patterns of human fetal breathing movements (Trudinger and Knight), 724
- Amino acid uptake, placental. V. Relationship to placental maturation in rat (Schlepphorst, Kelley, and Smith), 499
- Amniocentesis, avoiding iatrogenic prematurity with elective repeat cesarean section without routine use of (Frigoletto et al.), 521
- unusual complication of: Extramembranous pregnancy (Vago and Chavkin), 511 (Comm. in brief)
- Amnions obtained from laboring and nonlaboring women, lysosomal enzyme release in vitro from, XI. Initiation of human parturition (Schwarz, MacDonald, and Johnston), 21
- Amniotic, extra-, prostaglandins, intrauterine, vaginal prostaglandin E<sub>2</sub> suppositories and, comparison between, in management of fetal death in utero (Scher et al.), 769
- fluid(s), amniotic membranes, and endometrial biopsy cultures, clinical significance, at time of cesarean section (Cooperman, Kasim, and Rajashekaraiah), 536
- bacterial colonization of, in presence of ruptured membranes (Miller et al.), 451
- cholinesterase studies, value of, V. Prenatal diagnosis of neural tube defects (Zeisel, Milusky, and Blustajn), 481
- cortisol, 11-desoxycortisol, and 21-desoxycortisol concentrations in, during normal pregnancy (Blankstein et al.), 781
- from two United States population groups, studies on growth-inhibiting property of (Appelbaum et al.), 579

### Amniotic fluid—Cont'd

- human, methylumbelliferylguanidinobenzoate-reactive proteases in: Promising marker for intrauterine detection of cystic fibrosis (Walsh and Nadler), 978
- optical density at 450 mµ, changes in, in Rh-sensitized patients after maternal hydrocortisone treatment (Anderson and Cordero), 820
- intra-, instillation of prostaglandin F<sub>2α</sub>, dilatation and evacuation versus, midtrimester abortion by: Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- Anaerobic flora, aerobic and, of female genital tract, quantitative and qualitative effects of povidone-iodine liquid and gel on (Monif et al.), 432
- Analgesia, obstetric, β-endorphin in (Oyama et al.), 613 (Current investigation)
- Anatomic classification of rectovaginal septal defects (Rosenstein, Genadry, and Woodruff), 439
- Anencephalic adrenal gland, morphologic features of, in early pregnancy (Gray and Abramovich), 491
- Anesthesia, obstetric, language barrier in (DeVore and Koskela), 745 (Comm. in brief)
- Anomalies, multiple congenital, in fetus exposed to 5-fluorouracil during first trimester (Stephens et al.), 747 (Comm. in brief)
- Antenatal corticosteroids to prevent neonatal respiratory distress syndrome: Risk versus benefit considerations (Depp et al.), 338
- Antepartum fetal heart rate testing, prospective, clinical implications of (Devoe), 983
- VI. Predictive reliability of "normal" tests in prevention of antepartum death (Druzin, Gratacos, and Paul), 746 (Comm. in brief)
- indicator of fetal well-being, pre-ejection period as (Organ, Bernstein, and Hawrylyshyn), 810
- Antibody (antibodies), irregular—Continuing problem (Griffith), 174
- serum, to capsular polysaccharide from type III, group B *Streptococcus*, determination of, II. Natural history of group B streptococcal colonization in pregnant woman and her offspring (Baker et al.), 39
- Apnea, effect of oxygen and of carbon dioxide tension on incidence of, in fetal lambs (Bissonnette et al.), 575
- Arteries, spiral, electron microscopic study of trophoblastic invasion of: Human placental bed (De Wolf et al.), 58
- Asphyxia, prolonged partial, fetal heart rate and blood pressure during, in rhesus monkey (Mueller-Heubach, Myers, and Adamsons), 48
- Assault, sexual: Rape (Hicks), 931
- Assay, limulus lysate, rapid presumptive diagnosis of gonococcal cervicitis by (Spagna, Prior, and Perkins), 595
- Autoimmunity, thyroid, myasthenia gravis, and premature menopause (Williamson et al.), 893

### B

- Bacterial colonization of amniotic fluid in presence of ruptured membranes (Miller et al.), 451
- Ball methods, Thoms and modified, comparison of, with manual pelvimetry: Evaluation of usefulness of x-ray pelvimetry (Fine, Bracken, and Berkowitz), 15
- Basal cell-like carcinoma in upper third of vagina (Naves, Monti, and Chichoni), 136 (Comm. in brief)
- Bile acids, serum concentration of, in maternal blood and cord blood at parturition (Demers and Darnell Jones), 146 (Comm. in brief)
- Binding of medroxyprogesterone acetate in human breast cancer (Young et al.), 284
- substance, human placental lactogen-, qualitative detection of, by radioassay (Heal and Gluck), 975
- Biopsy, cone: Outpatient procedure (Berkus and Daly), 953
- treatment of cervical intraepithelial neoplasia by (Jones and Bulter), 882

\*May 1, 1-154; May 15, 155-276; June 1, 277-400; June 15, 401-520; July 1, 521-634; July 15, 635-752; August 1, 753-872; August 15, 873-1010.

Biopsy—Cont'd

- cultures, endometrial, amniotic fluid, and amniotic membranes, clinical significance of, at time of cesarean section (Cooperman, Kasim, and Rajashekaraiah), 536
- Birth-weight, very-low-, infants, changing trends of neonatal and postneonatal deaths in (Hack et al.), 797
- Birthing center, alternative: Experience in teaching obstetric service (Barton et al.), 377
- Blood flow through fetal liver and ductus venosus, effect of norepinephrine on (Zink and Van Petten), 71
  - group Rh-D factor in human trophoblast determined by immunofluorescent method (Goto, Nishi, and Tomoda), 707
- maternal, and cord blood, serum concentration of bile acids in, at parturition (Demers and Darnell Jones), 146 (Comm. in brief)
- pressure, fetal heart rate and, during prolonged partial asphyxia in rhesus monkey (Mueller-Heubach, Myers, and Adamsons), 48
- viscosity, increased, in young women using oral contraceptives (Lowe et al.), 840
- Body, fetal, and fetal head volumes, estimation of: Description of technique and nomograms for 18 to 41 weeks of gestation (Martinez and Barton), 78
- Books received, 276, 752
- Breast cancer, human, binding of medroxyprogesterone acetate in (Young et al.), 284
  - carcinoma of, in community hospital: Who makes diagnosis? (Maharry), 207
  - disease, benign, danazol for (Nezhat, Asch, and Greenblatt), 604
  - tissue, vulvar ectopic, mimicking periductal abscess (Reeves and Kaufman), 509 (Comm. in brief)
- Breathing activity, increased fetal, after fetal hypophysectomy (Robinson, Kingston, and Thorburn), 729
  - movements, human fetal, fetal age and (Trudinger and Knight), 724
- Breech delivery in twenty years of practice (Graves), 229
- presentation, term frank, randomized management of: Study of 208 cases (Colle, Chien, and Quilligan), 235

C

- Camera, large-format, colphotography with (Wolnik), 141 (Comm. in brief)
- Cancer, cervical, radical hysterectomy in treatment of (Benedet et al.), 254
  - endometrial, estrogen and: Cases and two control groups from North Carolina (Hulka et al.), 92
  - risk of exogenous estrogen therapy and (Jelovsek et al.), 85
  - gynecologic, tumor marker of:  $\beta_2$ -microglobulin (Trope, Lögdberg, and Johnsson), 743 (Comm. in brief)
  - human breast, binding of medroxyprogesterone acetate in (Young et al.), 284
- Carbon dioxide tension, effect of oxygen and of, on incidence of apnea in fetal lambs (Bissonnette et al.), 575
- Carcinoma, basal cell-like, in upper third of vagina (Naves, Monti, and Chichoni), 136 (Comm. in brief)
  - of breast in community hospital: Who makes diagnosis? (Maharry), 207
  - of cervix: Diagnostic problem (Prapath et al.), 514 (Comm. in brief)
  - invasive vulvar, significance of histologic alterations adjacent to (Buscema, Stern, and Woodruff), 902
  - primary tubal, in pregnancy (Schinfeld and Winston), 512 (Comm. in brief)
  - verrucous, II. Verrucous lesions of female genitalia (Partridge et al.), 419
- Catheterization, Swan-Ganz, role of: Invasive hemodynamic monitoring in critically ill pregnant patients (Berkowitz and Rafferty), 127 (Current developments)
- Cefamandole therapy, high-dose, in obstetric and gynecologic infections (Gall and Hill), 914
- Cell(s), abnormal, studies on distribution of, in cytologic preparations. III. Making smear with plastic spatula (Rubio et al.), 843
- adenocarcinoma, cervicovaginal clear, diethylstilbestrol-exposed monozygotic twins discordant for (Sandberg and Christian), 220
  - basal, -like carcinoma in upper third of vagina (Naves, Monti, and Chichoni), 136 (Comm. in brief)
  - human ectocervical and endocervical epithelial, in culture: Comparative ultrastructural study (Vesterinen et al.), 681

- Central Association of Obstetricians and Gynecologists, transactions, forty-seventh annual meeting, 277-391
- Cerebral edema in severe pregnancy-induced hypertension (Benedetti and Quilligan), 860 (Comm. in brief)
- Cervical cancer, radical hysterectomy in treatment of (Benedet et al.), 254
  - ectopy and cervicovaginal hood: Natural history of diethylstilbestrol-associated genital tract lesions (Antonioli, Burke, and Friedman), 847
  - intraepithelial neoplasia treated by cryotherapy, analysis of "long-term" follow-up results in patients with (Richart et al.), 823
  - treatment of, by cone biopsy (Jones and Buller), 882
  - neoplasia, diagnostic value of colposcopy in investigation of (Javaheri and Feigin), 588
  - (trans-) flushing of uterus, recovery of ova by, time interval between luteinizing hormone peak and, in normal women, III. Studies on duration of ovum transport by human oviduct (Diaz, Ortiz, and Croxatto), 116
- Cervicitis, gonococcal, rapid presumptive diagnosis of, by limulus lysate assay (Spagna, Prior, and Perkins), 595
- Cervicovaginal clear cell adenocarcinoma, diethylstilbestrol-exposed monozygotic twins discordant for (Sandberg and Christian), 220
  - hood, cervical ectopy and: Natural history of diethylstilbestrol-associated genital tract lesions (Antonioli, Burke, and Friedman), 847
- Cervix, carcinoma of: Diagnostic problem (Prapath et al.), 514 (Comm. in brief)
  - early physiologic squamous metaplasia of: Light and electron microscopic observations (Lawrence and Shingleton), 661
- Cesarean hysterectomy, sterilization by (Britton), 887
- section, clinical significance of amniotic fluid, amniotic membranes, and endometrial biopsy cultures at time of (Cooperman, Kasim, and Rajashekaraiah), 536
  - elective repeat, avoiding iatrogenic prematurity with, without routine use of amniocentesis (Frigoletto et al.), 521
  - endometritis following (Donowitz and Wenzel), 467
  - post-, endometritis: Causative organisms and risk factors (Middleton et al.), 144 (Comm. in brief)
  - uteroabdominal sinus following (Dessouky and Bolan), 147 (Comm. in brief)
- Chemotherapy, hyperalimentation and, use of, in pregnancy: Case report (Webb), 263
  - predicting tumor response to: New indication for colposcopy (Marin and Crisp), 862
- Cholinesterase studies, amniotic fluid, value of, V. Prenatal diagnosis of neural tube defects (Zeisel, Milunsky, and Blusztajn), 481
- Chorea associated with oral contraceptive therapy (Dove), 740 (Comm. in brief)
- Chorionic gonadotropin, human, elevated titers of beta subunit of, in oophorectomized women being treated for trophoblastic disease (Hatch et al.), 122
- Cigarette-smoking mothers, fetal growth retardation in, is not due to decreased maternal food intake (Haworth et al.), 719
- Clear cell adenocarcinoma, cervicovaginal, diethylstilbestrol-exposed monozygotic twins discordant for (Sandberg and Christian), 220
- Clinical opinion, 1-7, 401-411, 635-637, 753-757
- Coccidioidomycosis complicating pregnancy (McCoy, Ellenberg, and Killam), 739 (Comm. in brief)
- Coelomic metaplasia, positive proof for theory of (El-Mahgoub and Yaseen), 137 (Comm. in brief)
- Coital activity and premature delivery (Rayburn and Wilson), 972
- Colonization, bacterial, of amniotic fluid in presence of ruptured membranes (Miller et al.), 451
  - group B streptococcal, natural history of, in pregnant woman and her offspring. I. Colonization studies (Yow et al.), 34
  - II. Determination of serum antibody to capsular polysaccharide from type III, group B *Streptococcus* (Baker et al.), 39
  - vaginal, with invasive *Escherichia coli* during pregnancy (Amstey, Lewin, and Colaiace), 534
- Colphotography with large-format camera (Wolnik), 141 (Comm. in brief)
- Colposcopy, diagnostic value of, in investigation of cervical neoplasia (Javaheri and Feigin), 588
  - new indication for: Predicting tumor response to chemotherapy (Marin and Crisp), 862

- Communications in brief, 135-148, 509-516, 739-751, 857-868
- Community hospital, carcinoma of breast in: Who makes diagnosis? (Maharry), 207
- Computer technique, new, for continuous measurement of pre-ejection period in human fetus: Physiologic significance of pre-ejection period patterns (Hawrylyshyn, Organ, and Bernstein), 801
- Condylomata, giant, I. Verrucous lesions of female genitalia (Partridge et al.), 412
- Cone biopsy: Outpatient procedure (Berkus and Daly), 953  
treatment of cervical intraepithelial neoplasia by (Jones and Bulter), 882
- Congenital anomalies, multiple, in fetus exposed to 5-fluorouracil during first trimester (Stephens et al.), 747 (Comm. in brief)
- Conjoined ("Siamese") twin placenta, unusual findings in (Wiegenstein and Iozzo), 744 (Comm. in brief)
- twins, xiphopagus: 300-year review of obstetric, morphopathologic, neonatal, and surgical parameters (Harper et al.), 617 (Current developments)
- Contraception, pregnancy and, attitudes of adolescents toward (Ryan and Sweeney), 358
- Contraceptive(s), oral, containing 50 µg of estrogen and those containing 20 µg of estrogen, comparative study of effect of, on adrenal cortical function (Amin et al.), 831  
increased blood viscosity in young women using (Lowe et al.), 840  
low-estrogen or regular type of, pituitary and ovarian responsiveness to graded gonadotropin releasing factor stimulation test in women using (Spellacy et al.), 109  
therapy, oral, chorea associated with (Dove), 740 (Comm. in brief)  
use, adolescent: Experience in 1,762 teenagers (Edwards et al.), 583
- Cord blood, maternal blood and, serum concentration of bile acids in, at parturition (Demers and Darnell Jones), 146 (Comm. in brief)  
compromise, indication of: Variable decelerations and nonstress test (O'Leary, Andrinopoulos, and Giordano), 704
- Correspondence, 149-152, 517-520, 630-631, 869-870
- Cortical function, adrenal, comparative study of effect of oral contraceptives containing 50 µg of estrogen and those containing 20 µg of estrogen on (Amin et al.), 831
- Corticosteroids, antenatal, to prevent neonatal respiratory distress syndrome: Risk versus benefit considerations (Depp et al.), 338
- Cortisol, 11-desoxycortisol, and 21-desoxycortisol concentrations in amniotic fluid during normal pregnancy (Blankstein et al.), 781
- Costs, health care, effect of utilization on (Sack), 271
- Cryosurgery, model for thermal monitoring in (Wilchins et al.), 854
- Cryotherapy, analysis of "long-term" follow-up results in patients with cervical intraepithelial neoplasia treated by (Richart et al.), 823
- Culture(s), endometrial biopsy, amniotic fluid, and amniotic membranes, clinical significance of, at time of cesarean section (Cooperman, Kasim, and Rajashekaraiah), 536  
human ectocervical and endocervical epithelial cells in: Comparative ultrastructural study (Vesterinen et al.), 681
- Current developments, 127-134, 617-629  
investigation, 613-616
- Cystic fibrosis, promising marker for intrauterine detection of: Methylumbelliferylguanidinobenzoate-reactive proteases in human amniotic fluid (Walsh and Nadler), 978
- Cytogenetic studies, clinical and, of patients with polycystic ovary disease (Parker et al.), 656
- Cytologic preparations, studies on distribution of abnormal cells in. III. Making smear with plastic spatula (Rubio et al.), 843
- D**
- Danazol for benign breast disease (Nezhat, Asch, and Greenblatt), 604
- Death(s), antepartum, predictive reliability of "normal" tests in prevention of, VI. Antepartum fetal heart rate testing (Druzin, Gratacos, and Paul), 746 (Comm. in brief)  
fetal, intravenous prostaglandin E<sub>2</sub> and 16-phenoxy prostaglandin E<sub>2</sub> methyl sulfonamide for induction of, in utero (Gruber and Baumgarten), 8  
in utero, comparison between vaginal prostaglandin E<sub>2</sub> suppositories and intrauterine extra-amniotic prostaglandin in management of (Scher et al.), 769  
intrauterine fetal, management of, with prostaglandin E<sub>2</sub> vaginal suppositories (Lauersen, Cedergvist, and Wilson), 753 (Clinical opinion)
- Death(s)—Cont'd  
maternal, secondary to disseminated herpesvirus hominis (Kobbermann, Clark, and Griffin), 742 (Comm. in brief)  
neonatal and postneonatal, changing trends of, in very-low-birth-weight infants (Hack et al.), 797
- Decelerations, variable, and nonstress test: Indication of cord compromise (O'Leary, Andrinopoulos, and Giordano), 704
- Delivery, breech, in twenty years of practice (Graves), 229  
labor and, acid-base characteristics of fetuses with intrauterine growth retardation during (Lin et al.), 553  
out-of-hospital, in Washington State, 1975 to 1977 (Shy, Frost, and Ullom), 547  
premature, coital activity and (Rayburn and Wilson), 972
- Desensitization therapy, hypnotic, of vaginismus by (Fuchs), 1 (Clinical opinion)
- Desoxycortisol, 11-, 21-desoxycortisol, and cortisol concentrations in amniotic fluid during normal pregnancy (Blankstein et al.), 781
- Diabetic patients, pregnant, lack of subhourly variations in plasma unconjugated estril levels in, in third trimester (Reese, Wilcourt, and Queenan), 543
- Diethylstilbestrol-associated genital tract lesions, natural history of: Cervical ectopy and cervicovaginal hood (Antonioli, Burke, and Friedman), 847  
-exposed monozygotic twins discordant for cervicovaginal clear cell adenocarcinoma (Sandberg and Christian), 220  
reproductive significance of changes in endometrial cavity associated with exposure in utero to (Pillsbury), 178  
upper genital tract changes and pregnancy outcome in offspring exposed in utero to (Kaufman et al.), 299
- Dilatation and evacuation versus intra-amniotic instillation of prostaglandin F<sub>2α</sub>, midtrimester abortion by: Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- Disease, benign breast, danazol for (Nezhat, Asch, and Greenblatt), 604
- Jr<sup>h</sup>-mediated hemolytic, of newborn infant (Orrick and Golde), 135 (Comm. in brief)  
polycystic ovary, clinical and cytogenetic studies of patients with (Parker et al.), 656  
trophoblastic, elevated titers of beta subunit of human chorionic gonadotropin in oophorectomized women being treated for (Hatch et al.), 122
- Distress, fetal, in term pregnancies (Haesslein and Niswander), 245  
syndrome, neonatal respiratory, antenatal corticosteroids to prevent: Risk versus benefit considerations (Depp et al.), 338  
respiratory, and maternal hypertension, relationship of newborn serum prolactin levels to (Grosso et al.), 569
- Dobutamine and dopamine, vascular and uterine responses to, in gravid ewe (Fishburne et al.), 944
- Dopamine, dobutamine and, vascular and uterine responses to, in gravid ewe (Fishburne et al.), 944
- Dopaminergic inhibition of secretion of thyroid-stimulating hormone, evidence for, in hyperprolactinemic patients with pituitary microadenoma (Quigley and Yen), 653
- Drug concentrations, fetal, prediction of (Anderson, Phernetton, and Rankin), 735
- Ductus venosus, fetal liver and, effect of norepinephrine on blood flow through (Zink and Van Petten), 71
- Dysmenorrhea therapy, objective evaluation of (Smith and Powell), 314
- E**
- Ectocervical and endocervical epithelial cells, human, in culture: Comparative ultrastructural study (Vesterinen et al.), 681
- Ectopic breast tissue, vulvar, mimicking periclitral abscess (Reeves and Kaufman), 509 (Comm. in brief)  
production of "pregnancy-specific" beta-1 glycoprotein in vitro: Discordance with three other placental proteins (Rosen et al.), 525
- Ectopy, cervical, and cervicovaginal hood: Natural history of diethylstilbestrol-associated genital tract lesions (Antonioli, Burke, and Friedman), 847
- Edema, cerebral, in severe pregnancy-induced hypertension (Benedetti and Quilligan), 850 (Comm. in brief)
- Electron microscopic observations, light and: Early physiologic squamous metaplasia of cervix (Lawrence and Shingleton), 661  
study of trophoblastic invasion of spiral arteries: Human placental bed (De Wolf et al.), 58

- Electronic fetal heart rate monitoring, effects of, on perinatal outcome and obstetric practices (Mueller-Heubach et al.), 758
- Endocervical epithelial cells, human ectocervical and, in culture: Comparative ultrastructural study (Vesterinen et al.), 681
- Endometrial biopsy cultures, amniotic fluid, and amniotic membranes, clinical significance of, at time of cesarean section (Cooperman, Kasim, and Rajashekaraiah), 536
- cancer, estrogen and: Cases and two control groups from North Carolina (Hulka et al.), 92
- risk of exogenous estrogen therapy and (Jelovsek et al.), 85
- cavity, reproductive significance of changes in, associated with exposure in utero to diethylstilbestrol (Pillsbury), 178
- Endometriosis, heritable aspects of. I. Genetic studies (Simpson et al.), 327
- II. Clinical characteristics of familial endometriosis (Malinak et al.), 332
- Endometritis following cesarean section (Donowitz and Wenzel), 467
- post-cesarean section: Causative organisms and risk factors (Middleton et al.), 144 (Comm. in brief)
- Endorphin,  $\beta$ -, in obstetric analgesia (Oyama et al.), 613 (Current investigation)
- Endotoxemia, role of prostaglandins in: Comparisons in response in nonpregnant, maternal, and fetal models. I. Prostaglandins and pulmonary effect of experimental endotoxemia (Cefalo et al.), 53
- Environmental pollution and pregnancy: Risks and uncertainties for fetus and infant (Longo), 162
- Enzyme(s) release, lysosomal, in vitro from amnions obtained from laboring and nonlaboring women. XI. Initiation of human parturition (Schwarz, MacDonald, and Johnston), 21
- serum, in diagnosis of ovarian malignancy (Burrows), 140 (Comm. in brief)
- Eosinophilic granuloma with involvement of female genitalia (Issa et al.), 608
- Epithelial cells, human ectocervical and endocervical, in culture: Comparative ultrastructural study (Vesterinen et al.), 681
- Erratum, 458
- Escherichia coli*, invasive, vaginal colonization with, during pregnancy (Amstey, Lewin, and Colaice), 534
- Estradiol, estriol, and progesterone, serum, before and during induced labor (Kauppila et al.), 462
- Estriol excretion, rhythmic changes in, during pregnancy (Isaksson et al.), 470
- levels, plasma unconjugated, lack of subhourly variations in, in pregnant diabetic patients in third trimester (Rao, Wilcourt, and Queenan), 543
- progesterone, and estradiol, serum, before and during induced labor (Kauppila et al.), 462
- Estrogen and endometrial cancer: Cases and two control groups from North Carolina (Hulka et al.), 92
- low-, or regular type of oral contraceptive, pituitary and ovarian responsiveness to graded gonadotropin releasing factor stimulation test in women using (Spellacy et al.), 109
- oral contraceptives containing 50  $\mu$ g of, and those containing 20  $\mu$ g of estrogen, comparative study of effect of, on adrenal cortical function (Amin et al.), 831
- and pregnanediol glucuronides, urinary, direct radioimmunoassay of, during menstrual cycle (Stanczyk, Miyakawa, and Goebelsmann), 443
- priming, effect of, on induction of labor with prostaglandins (Luther et al.), 351
- therapy, exogenous, risk of, and endometrial cancer (Jelovsek et al.), 85
- Ethanol, infants of mothers treated with, for premature labor (Zervoudakis, Krauss, and Fuchs), 713
- Evacuation, dilatation and, versus intra-amniotic instillation of prostaglandin  $F_{2\alpha}$ , midtrimester abortion by: Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- Excretion, estriol, rhythmic changes in, during pregnancy (Isaksson et al.), 470
- Exogenous estrogen therapy, risk of, and endometrial cancer (Jelovsek et al.), 85
- Extramembranous pregnancy: Unusual complication of amniocentesis (Vago and Chavkin), 511 (Comm. in brief)
- F
- Factor, blood group Rh-D, in human trophoblast determined by immunofluorescent method (Goto, Nishi, and Tomoda), 707

- Factor—Cont'd
- stimulation test, graded gonadotropin releasing, pituitary and ovarian responsiveness to, in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- Familial endometriosis, clinical characteristics of. II. Heritable aspects of endometriosis (Malinak et al.), 332
- Fetal age and patterns of human fetal breathing movements (Trudinger and Knight), 724
- body and fetal head volumes, estimation of: Description of technique and nomograms for 18 to 41 weeks of gestation (Martinez and Barton), 78
- breathing activity, increased, after fetal hypophysectomy (Robinson, Kingston, and Thorburn), 729
- death, intrauterine, management of, with prostaglandin  $E_2$  vaginal suppositories (Lauersen, Cedergvist, and Wilson), 753 (Clinical opinion)
- intravenous prostaglandin  $E_2$  and 16-ph-noxy prostaglandin  $E_2$  methyl sulfonamide for induction of, in utero (Gruber and Baumgarten), 8
- in utero, comparison between vaginal prostaglandin  $E_2$  suppositories and intrauterine extra-amniotic prostaglandins in management of (Scher et al.), 769
- distress in term pregnancies (Haesslein and Niswander), 245
- drug concentrations, prediction of (Anderson, Phernetton, and Rankin), 735
- growth, gestational changes in functional structure of human placenta in relation to: Morphometric study (Teasdale), 560
- retardation in cigarette-smoking mothers is not due to decreased maternal food intake (Haworth et al.), 719
- heart rate and blood pressure during prolonged partial asphyxia in rhesus monkey (Mueller-Heubach, Myers, and Adamsons), 48
- monitoring, electronic, effects of, on perinatal outcome and obstetric practices (Mueller-Heubach et al.), 758
- intrapartum. III. Association of meconium with abnormal fetal heart rate patterns (Krebs et al.), 936
- in premature infants weighing 1,500 grams or less (Bowes, Gabbe, and Bowes), 791
- testing, antepartum. VI. Predictive reliability of "normal" tests in prevention of antepartum death (Druzin, Gratacos, and Paul), 746 (Comm. in brief)
- prospective antepartum, clinical implications of (Devoe), 983
- lambs, effect of oxygen and of carbon dioxide tension on incidence of apnea in (Bissonnette et al.), 575
- liver and ductus venosus, effect of norepinephrine on blood flow through (Zink and Van Petten), 71
- metabolism, alterations in, subsequent to maternal morphine administration (Raye, Dubin, and Blechner), 505
- movements and ultrasound: Effect of maternal intravenous glucose administration (Gelman et al.), 459
- nonpregnant, and maternal models, comparisons in response in: Role of prostaglandins in endotoxemia. I. Prostaglandins and pulmonary effect of experimental endotoxemia (Cefalo et al.), 53
- survival—What price (Kirkley), 873
- well-being, pre-ejection period as antepartum indicator of (Organ, Bernstein, and Hawrylyshyn), 810
- Fetus(es) exposed to 5-fluorouracil during first trimester, multiple congenital anomalies in (Stephens et al.), 747 (Comm. in brief)
- and infant, risks and uncertainties for: Environmental pollution and pregnancy (Longo), 162
- new computer technique for continuous measurement of pre-ejection period in: Physiologic significance of pre-ejection period patterns (Hawrylyshyn, Organ, and Bernstein), 801
- with intrauterine growth retardation, acid-base characteristics of, during labor and delivery (Lin et al.), 553
- Fimbriectomy sterilization, Kroener, reversal of (Novy), 198
- Flora, aerobic and anaerobic, of female genital tract, quantitative and qualitative effects of povidone-iodine liquid and gel on (Monif et al.), 432
- Fluorouracil, 5-, multiple congenital anomalies in fetus exposed to, during first trimester (Stephens et al.), 747 (Comm. in brief)
- Food intake, decreased maternal, fetal growth retardation in cigarette-smoking mothers is not due to (Haworth et al.), 719
- Frank breech presentation, term, randomized management of: Study of 208 cases (Colle, Chin, and Quilligan), 235

## G

- Genetic studies, I. Heritable aspects of endometriosis (Simpson et al.), 327
- Genital tract changes, upper, and pregnancy outcome in offspring exposed in utero to diethylstilbestrol (Kaufman et al.), 299
- female, quantitative and qualitative effects of povidone-iodine liquid and gel on aerobic and anaerobic flora of (Monif et al.), 432
- lesions, diethylstilbestrol-associated, natural history of: Cervical ectopy and cervicovaginal hood (Antonioli, Burke, and Friedman), 847
- Genitalia, female, eosinophilic granuloma with involvement of (Issa et al.), 608
- verrucous lesions of, I. Giant condylomata (Partridge et al.), 412
- II. Verrucous carcinoma (Partridge et al.), 419
- Gestation, 18 to 41 weeks of, description of technique and nomograms for: Estimation of fetal body and fetal head volumes (Martinez and Barton), 78
- Gestational changes in functional structure of human placenta in relation to fetal growth: Morphometric study (Teasdale), 560
- trophoblastic neoplasia, management of liver metastasis from (Grumbine et al.), 959
- Gland, anencephalic adrenal, morphologic features of, in early pregnancy (Gray and Abramovich), 491
- Glomerulonephritis, acute poststreptococcal, in pregnancy: Case report with 18-year follow-up (Singson, Fisher, and Lindheimer), 857 (Comm. in brief)
- Glucose administration, maternal intravenous, effect of: Fetal movements and ultrasound (Gelman et al.), 459
- Glucuronides, urinary estrogen and pregnanediol, direct radioimmunoassay of, during menstrual cycle (Stanczyk, Miyakawa, and Goebelsmann), 443
- Glycoprotein, "pregnancy-specific" beta-1, ectopic production of, in vitro: Discordance with three other placental proteins (Rosen et al.), 525
- Goiter, myth of, in pregnancy (Levy et al.), 701
- Gonadotropin, human chorionic, elevated titers of beta subunit of, in oophorectomized women being treated for trophoblastic disease (Hatch et al.), 122
- releasing factor stimulation test, graded, pituitary and ovarian responsiveness to, in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- Gonococcal cervicitis, rapid presumptive diagnosis of, by limulus lysate assay (Spagna, Prior, and Perkins), 595
- Granuloma, eosinophilic, with involvement of female genitalia (Issa et al.), 608
- Gravid ewe, vascular and uterine responses to dobutamine and dopamine in (Fishburne et al.), 944
- Growth, fetal, gestational changes in functional structure of human placenta in relation to: Morphometric study (Teasdale), 560
- inhibiting property of amniotic fluids from two United States population groups, studies on (Appelbaum et al.), 579
- retardation, fetal, in cigarette-smoking mothers is not due to decreased maternal food intake (Haworth et al.), 719
- severe intrauterine, induction of, in Sprague-Dawley rat (Van Geijn et al.), 43
- Gynecologic cancer, tumor marker of:  $\beta_2$ -microglobulin (Trobe, Lögdberg, and Johnsson), 743 (Comm. in brief)
- infections, obstetric and, high-dose cefamandole therapy in (Gall and Hill), 914
- Gynecology, obstetrics and: Doing better—feeling worse (Stone), 309
- manpower for, II. Characteristics of patients; their diagnoses and care (Pearse and Mendenhall), 320

## H

- Haemophilus vaginalis* vaginitis after twenty-five years (Gardner), 385
- Head volumes, fetal, fetal body and, estimation of: Description of technique and nomograms for 18 to 41 weeks of gestation (Martinez and Barton), 78
- Health care costs, effect of utilization on (Sack), 271
- Heart, newborn rabbit, influence of alpha-methyl dopa on sympathetic innervation, in (Hoskins and Friedman), 496
- rate, fetal, and blood pressure during prolonged partial asphyxia in rhesus monkey (Mueller-Heubach, Myers, and Adamsons), 48
- monitoring, electronic fetal, effects of, on perinatal outcome and obstetric practices (Mueller-Heubach et al.), 758

## Heart rate monitoring—Cont'd

- fetal, in premature infants weighing 1,500 grams or less (Bowes, Gabbe, and Bowes), 791
- intrapartum fetal, III. Association of meconium with abnormal fetal heart rate patterns (Krebs et al.), 936
- testing, antepartum fetal, VI. Predictive reliability of "normal" tests in prevention of antepartum death (Druzin, Gratacos, and Paul), 746 (Comm. in brief)
- prospective antepartum fetal, clinical implications of (Devoe), 983
- Hemodynamic effects of isoxsuprine and terbutaline in pregnant and nonpregnant sheep (Nuwayhid et al.), 25
- monitoring, invasive, in critically ill pregnant patients: Role of Swan-Ganz catheterization (Berkowitz and Rafferty), 127
- (Current developments)
- Hemolytic disease, Jr<sup>a</sup>-mediated, of newborn infant (Orrick and Golde), 135 (Comm. in brief)
- Heritable aspects of endometriosis, I. Genetic studies (Simpson et al.), 327
- II. Clinical characteristics of familial endometriosis (Malinak et al.), 332
- Herpes genitalis, asymptomatic virus shedding after (Adam et al.), 827
- Herpesvirus hominis, disseminated, maternal death secondary to (Kobbermann, Clark, and Griffin), 742 (Comm. in brief)
- Histologic alterations adjacent to invasive vulvar carcinoma, significance of (Buscema, Stern, and Woodruff), 902
- Hood, cervicovaginal, cervical ectopy and: Natural history of diethylstilbestrol-associated genital tract lesions (Antonioli, Burke, and Friedman), 847
- Hormone peak, luteinizing, and recovery of ova by transcervical flushing of uterus, time interval between, in normal women, III. Studies on duration of ovum transport by human oviduct (Diaz, Ortiz, and Croxatto), 116
- thyroid-stimulating, evidence for increased dopaminergic inhibition of secretion of, in hyperprolactinemic patients with pituitary microadenoma (Quigley and Yen), 653
- Hospital, community, carcinoma of breast in Who makes diagnosis? (Maharry), 207
- out-of-, delivery in Washington State, 1975 to 1977 (Shy, Frost, and Ullom), 547
- Human chorionic gonadotropin, elevated titers of beta subunit of, in oophorectomized women being treated for trophoblastic disease (Hatch et al.), 122
- placental lactogen-binding substance, qualitative detection of, by radioassay (Heal and Gluck), 975
- Hydrocortisone treatment, maternal, changes in amniotic fluid optical density at 450 m $\mu$  in Rh-sensitized patients after (Anderson and Cordero), 820
- Hyperalimentation and chemotherapy, use of, in pregnancy: Case report (Webb), 263
- Hyperprolactinemia, postpartum hypopituitarism and (Vaughn, Wiebe, and Hammond), 749 (Comm. in brief)
- Hyperprolactinemic patients with pituitary microadenoma, evidence for increased dopaminergic inhibition of secretion of thyroid-stimulating hormone in (Quigley and Yen), 653
- Hypertension, maternal, respiratory distress syndrome and, relationship of newborn serum prolactin levels to (Grosso et al.), 569
- severe pregnancy-induced, cerebral edema in (Benedetti and Quilligan), 850 (Comm. in brief)
- Hypnotic desensitization therapy of vaginismus by (Fuchs), 1 (Clinical opinion)
- Hypophysectomy, fetal, increased fetal breathing activity after (Robinson, Kingston, and Thorburn), 729
- Hypopituitarism, postpartum, and hyperprolactinemia (Vaughn, Wiebe, and Hammond), 749 (Comm. in brief)
- Hysterectomy, cesarean, sterilization by (Britton), 887
- radical, in treatment of cervical cancer (Benedet et al.), 254
- Hysteroscopy in evaluation of female infertility (Valle), 425

## I

- Immunofluorescent method, blood group Rh-D factor in human trophoblast determined by (Goto, Nishi, and Tomoda), 707
- Incontinence, stress urinary, selection of primary operative procedure for (Peters and Thornton), 923
- Infant(s), fetus and, risks and uncertainties for: Environmental pollution and pregnancy (Longo), 162

# Infant(s)—Cont'd

- of mothers treated with ethanol for premature labor (Zervoudakis, Krauss, and Fuchs), 713
- newborn, Jr<sup>a</sup>-mediated hemolytic disease of (Orrick and Golde), 135 (Comm. in brief)
- premature, weighing 1,500 grams or less, fetal heart rate monitoring in (Bowes, Gabbe, and Bowes), 791
- very-low-birth-weight, changing trends of neonatal and postneonatal deaths in (Hack et al.), 797
- Infection(s), is significant risk—Vaginal tubal ligation (Miesfeld, Giaratano, and Moyers), 183
- obstetric and gynecologic, high-dose cefamandole therapy in (Gall and Hill), 914
- Infertility, female, hysteroscopy in evaluation of (Valle), 425
- Intraepithelial neoplasia, cervical, treated by cryotherapy, analysis of "long-term" follow-up results in patients with (Richart et al.), 823
- treatment of, by cone biopsy (Jones and Buller), 882
- Intrapartum fetal heart rate monitoring. III. Association of meconium with abnormal fetal heart rate patterns (Krebs et al.), 936
- Intrauterine detection of cystic fibrosis, promising marker for: Methylumbelliferylguanidinobenzoate-reactive proteases in human amniotic fluid (Walsh and Nadler), 978
- extra-amniotic prostaglandins, vaginal prostaglandin E<sub>2</sub> suppositories and, comparison between, in management of fetal death in utero (Scher et al.), 769
- fetal death, management of, with prostaglandin E<sub>2</sub> vaginal suppositories (Lauersen, Cederqvist, and Wilson), 753 (Clinical opinion)
- growth retardation, acid-base characteristics of fetuses with, during labor and delivery (Lin et al.), 553
- severe, induction of, in Sprague-Dawley rat (Van Geijn et al.), 43
- Intravenous glucose administration, maternal, effect of: Fetal movements and ultrasound (Gelman et al.), 459
- prostaglandin E<sub>2</sub> and 16-phenoxy prostaglandin E<sub>2</sub> methyl sulfonylamide for induction of fetal death in utero (Gruber and Baumgarten), 8
- Invasive vulvar carcinoma, significance of histologic alterations adjacent to (Buscema, Stern, and Woodruff), 902
- Irregular antibodies—Continuing problem (Griffith), 174
- Isoxsuprine, results with: Treatment of premature labor with beta sympathomimetics (Schenken et al.), 773
- and terbutaline, hemodynamic effects of, in pregnant and nonpregnant sheep (Nuwayhid et al.), 25
- Items, 153-154, 392-400, 632-634, 871-872

## J

- Jr<sup>a</sup>-mediated hemolytic disease of newborn infant (Orrick and Golde), 135 (Comm. in brief)

## K

- Kroener fimbriectomy sterilization, reversal of (Novy), 198

## L

- Labor and delivery, acid-base characteristics of fetuses with intrauterine growth retardation during (Lin et al.), 553
- effect of estrogen priming on induction of, with prostaglandins (Luther et al.), 351
- induced, serum progesterone, estradiol, and estril before and during (Kauppila et al.), 462
- premature, infants of mothers treated with ethanol for (Zervoudakis, Krauss, and Fuchs), 713
- treatment of, with beta sympathomimetics: Results with isoxsuprine (Schenken et al.), 773
- preterm, oral ritodrine in treatment of (Creasy et al.), 212
- Labeling and nonlabeling women, lysosomal enzyme release in vitro from amnions obtained from, XI. Initiation of human parturition (Schwarz, MacDonald, and Johnston), 21
- Lactogen, human placental, -binding substance, qualitative detection of, by radioassay (Heal and Gluck), 975
- Laparoscopic sterilization, puerperal (McDonnell), 910
- Lesions, diethylstilbestrol-associated genital tract, natural history of: Cervical ectopy and cervicovaginal hood (Antonioli, Burke, and Friedman), 847
- verrucous, of female genitalia. I. Giant condylomata (Partridge et al.), 412
- II. Verrucous carcinoma (Partridge et al.), 419

- Ligation, vaginal tubal—Is infection significant risk? (Miesfeld, Giaratano, and Moyers), 183
- Light and electron microscopic observations: Early physiologic squamous metaplasia of cervix (Lawrence and Shingleton), 661
- Limulus lysate assay, rapid presumptive diagnosis of gonococcal cervicitis by (Spagna, Prior, and Perkins), 595
- Liver and ductus venosus, fetal, effect of norepinephrine on blood flow through (Zink and Van Peuten), 71
- metastasis from gestational trophoblastic neoplasia, management of (Grumbine et al.), 959
- Lunar and menstrual phase locking (Cutler), 834
- Luteinizing hormone peak and recovery of ova by transcervical flushing of uterus, time interval between, in normal women, III. Studies on duration of ovum transport by human oviduct (Diaz, Ortiz, and Croxatto), 116
- Luteolysis, pharmacologic induction of, in cynomolgus monkeys (*Macaca fascicularis*) (Shaikh, Shaikh, and Castrocane), 672
- Lysosomal enzyme release in vitro from amnions obtained from laboring and nonlaboring women, XI. Initiation of human parturition (Schwarz, MacDonald, and Johnston), 21

## M

- Magnification, tubal and peritubal surgery without (Spadoni), 189
- Malignancy, ovarian, serum enzymes in diagnosis of (Burrows), 140 (Comm. in brief)
- Manpower for obstetrics and gynecology. II. Characteristics of patients; their diagnoses and care (Pearse and Mendenhall), 320
- Maternal alpha-methyl dopa, influence of, on sympathetic innervation in newborn rabbit heart (Hoskins and Friedman), 496
- blood and cord blood, serum concentration of bile acids in, at parturition (Demers and Darnell Jones), 146 (Comm. in brief)
- death secondary to disseminated herpesvirus hominis (Kobbermann, Clark, and Griffin), 742 (Comm. in brief)
- fetal, and nonpregnant models, comparisons in response in: Role of prostaglandins in endotoxemia. I. Prostaglandins and pulmonary effect of experimental endotoxemia (Cefalo et al.), 53
- food intake, decreased, fetal growth retardation in cigarette-smoking mothers is not due to (Haworth et al.), 719
- hydrocortisone treatment, changes in amniotic fluid optical density at 450 mμ in Rh-sensitized patients after (Anderson and Cordero), 820
- hypertension, respiratory distress syndrome and, relationship of newborn serum prolactin levels to (Grosso et al.), 569
- intravenous glucose administration, effect of: Fetal movements and ultrasound (Gelman et al.), 459
- morphine administration, alterations in fetal metabolism subsequent to (Raye, Dubin, and Blechner), 505
- Maturation, placental, relationship to, in rat, V. Placental amino acid uptake (Schlepphorst, Kelley, and Smith), 499
- Meconium, association of, with abnormal fetal heart rate patterns, III. Intrapartum fetal heart rate monitoring (Krebs et al.), 936
- Medroxyprogesterone acetate, binding of, in human breast cancer (Young et al.), 284
- Membranes, amniotic, endometrial biopsy cultures, and amniotic fluid, clinical significance of, at time of cesarean section (Cooperman, Kasim, and Rajashekaraiah), 536
- ruptured, bacterial colonization of amniotic fluid in presence of (Miller et al.), 451
- Menopause, premature, thyroid autoimmunity, and myasthenia gravis (Williamson et al.), 893
- Menstrual cycle, direct radioimmunoassay of urinary estrogen and pregnanediol glucuronides during (Stanczyk, Miyakawa, and Goebelsmann), 443
- phase locking, lunar and (Cutler), 834
- Metabolism, fetal, alterations in, subsequent to maternal morphine administration (Raye, Dubin, and Blechner), 505
- Metaplasia, coelomic, positive proof for theory of (El-Mahgoub and Yaseen), 137 (Comm. in brief)
- early physiologic squamous, of cervix: Light and electron microscopic observations (Lawrence and Shingleton), 661
- Metastasis, liver, from gestational trophoblastic neoplasia, management of (Grumbine et al.), 959
- Methyl dopa, alpha-, maternal, influence of, on sympathetic innervation in newborn rabbit heart (Hoskins and Friedman), 496

- Methylumbelliferylguanidinobenzoate-reactive proteases in human amniotic fluid: Promising marker for intrauterine detection of cystic fibrosis (Walsh and Nadler), 978
- Microadenoma, pituitary, evidence for increased dopaminergic inhibition of secretion of thyroid-stimulating hormone in hyperprolactinemic patients with (Quigley and Yen), 653
- Microglobulin,  $\beta_2$ : Tumor marker of gynecologic cancer (Trope, Lögberg, and Johnsson), 743 (Comm. in brief)
- Microscopic observations, light and electron: Early physiologic squamous metaplasia of cervix (Lawrence and Shingleton), 661
- Midtrimester abortion by dilatation and evacuation versus intra-amniotic instillation of prostaglandin  $F_{2\alpha}$ : Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- Monitoring, electronic fetal heart rate, effects of, on perinatal outcome and obstetric practices (Mueller-Heubach et al.), 758
- fetal heart rate, in premature infants weighing 1,500 grams or less (Bowes, Gabbe, and Bowes), 791
- intrapartum fetal heart rate. III. Association of meconium with abnormal fetal heart rate patterns (Krebs et al.), 936
- invasive hemodynamic, in critically ill pregnant patients: Role of Swan-Ganz catheterization (Berkowitz and Rafferty), 127 (Current developments)
- thermal, model for, in cryosurgery (Wilchins et al.), 854
- Monozygotic twins, diethylstilbestrol-exposed, discordant for cervicovaginal clear cell adenocarcinoma (Sandberg and Christian), 220
- Morphine administration, maternal, alterations in fetal metabolism subsequent to (Raye, Dubin, and Blechner), 505
- Mothers, cigarette-smoking, fetal growth retardation in, is not due to decreased maternal food intake (Haworth et al.), 719
- treated with ethanol for premature labor, infants of (Zervoudakis, Krauss, and Fuchs), 713
- Movements, fetal, and ultrasound: Effect of maternal intravenous glucose administration (Gelman et al.), 459
- human fetal breathing, fetal age and (Trudinger and Knight), 724
- Myasthenia gravis, premature menopause, and thyroid autoimmunity (Williamson et al.), 893

## N

- Neonatal and postneonatal deaths, changing trends of, in very-low-birth-weight infants (Hack et al.), 797
- respiratory distress syndrome, antenatal corticosteroids to prevent: Risk versus benefit considerations (Depp et al.), 338
- surgical, obstetric, and morphopathologic parameters, 300-year review of: Xiphopagus conjoined twins (Harper et al.), 517 (Current developments)
- Neoplasia, cervical, diagnostic value of colposcopy in investigation of (Javaheri and Feigin), 588
- intraepithelial, treated by cryotherapy, analysis of "long-term" follow-up results in patients with (Richart et al.), 823
- treatment of, by cone biopsy (Jones and Buller), 882
- gestational trophoblastic, management of liver metastasis from (Grumbine et al.), 959
- transmissible venereal: Case report (Stein), 864 (Comm. in brief)
- Neural tube defects, prenatal diagnosis of. V. Value of amniotic fluid cholinesterase studies (Zeisel, Milunsky, and Blusztajn), 481
- Newborn infant,  $Jr^b$ -mediated hemolytic disease of (Orrick and Golde), 135 (Comm. in brief)
- rabbit heart, influence of alpha-methyl dopa on sympathetic innervation, in (Hoskins and Friedman), 496
- serum prolactin levels, relationship of, to respiratory distress syndrome and maternal hypertension (Grosso et al.), 569
- Nomograms, description of technique and, for 18 to 41 weeks of gestation: Estimation of fetal body and fetal head volumes (Martinez and Barton), 78
- Nonstress test, variable decelerations and: Indication of cord compromise (O'Leary, Andrinopoulos, and Giordano), 704
- Norepinephrine, effect of, on blood flow through fetal liver and ductus venosus (Zink and Van Petten), 71
- North Carolina, cases and two control groups from: Estrogen and endometrial cancer (Hulka et al.), 92

## O

- Obstetric(s) analgesia,  $\beta$ -endorphin in (Oyama et al.), 613 (Current investigation)
- anesthesia, language barrier in (DeVore and Koskela), 745 (Comm. in brief)

## Obstetric(s)—Cont'd

- and gynecologic infections, high-dose cefamandole therapy in (Gall and Hill), 914
- and gynecology: Doing better—feeling worse (Stone), 309
- manpower for. II. Characteristics of patients: their diagnoses and care (Pearse and Mendenhall), 320
- morphopathologic, neonatal, and surgical parameters, 300-year review of: Xiphopagus conjoined twins (Harper et al.), 617 (Current developments)
- practices, perinatal outcome and, effects of electronic fetal heart rate monitoring on (Mueller-Heubach et al.), 758
- service, teaching, experience in: Alternative birthing center (Barton et al.), 377
- Offspring exposed in utero to diethylstilbestrol, upper genital tract changes and pregnancy outcome in (Kaufman et al.), 299
- her, pregnant woman and, natural history of group B streptococcal colonization in. I. Colonization studies (Yow et al.), 34
- II. Determination of serum antibody to capsular polysaccharide from type III, group B *Streptococcus* (Baker et al.), 39
- Oophorectomized women being treated for trophoblastic disease, elevated titers of beta subunit of human chorionic gonadotropin in (Hatch et al.), 122
- Operative procedure, primary, for stress urinary incontinence, selection of (Peters and Thornton), 923
- Optical density, amniotic fluid, at 450 m $\mu$ , changes in, in Rh-sensitized patients after maternal hydrocortisone treatment (Anderson and Cordero), 820
- Oral contraceptive(s) containing 50  $\mu$ g of estrogen and those containing 20  $\mu$ g of estrogen, comparative study of effect of, on adrenal cortical function (Amin et al.), 831
- increased blood viscosity in young women using (Lowe et al.), 840
- low-estrogen or regular type of, pituitary and ovarian responsiveness to graded gonadotropin releasing factor stimulation test in women using (Spellacy et al.), 109
- therapy, chorea associated with (Dove), 740 (Comm. in brief)
- ritodrine maintenance in treatment of preterm labor (Creasy et al.), 212
- Organisms, causative, and risk factors: Post-caesarean section endometritis (Middleton et al.), 144 (Comm. in brief)
- Outpatient procedure: Cone biopsy (Berkus and Daly), 953
- Ovarian malignancy, serum enzymes in diagnosis of (Burrows), 140 (Comm. in brief)
- responsiveness, pituitary and, to graded gonadotropin releasing factor stimulation test in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- Ovary disease, polycystic, clinical and cytogenetic studies of patients with (Parker et al.), 656
- Oviduct, human, studies on duration of ova transport by. III. Time interval between luteinizing hormone peak and recovery of ova by transcervical flushing of uterus in normal women (Diaz, Ortiz, and Croxatto), 116
- Ovulatory (post-) intravaginal 15(S)-15-methyl prostaglandin  $F_{2\alpha}$ -methyl ester administration, ovum transport in rhesus monkey following (Eddy), 966
- Ovum transport by human oviduct, studies on duration of. III. Time interval between luteinizing hormone peak and recovery of ova by transcervical flushing of uterus in normal women (Diaz, Ortiz, and Croxatto), 116
- in rhesus monkey following postovulatory intravaginal 15(S)-15-methyl prostaglandin  $F_{2\alpha}$ -methyl ester administration (Eddy), 966
- Oxygen, effect of, and of carbon dioxide tension on incidence of apnea in fetal lambs (Bissonnette et al.), 575

## P

- Pacific Coast Obstetrical and Gynecological Society, transactions, forty-sixth annual meeting, 155-275
- Parturition, human, initiation of. XI. Lysosomal enzyme release in vitro from amnions obtained from laboring and nonlaboring women (Schwarz, MacDonald, and Johnston), 21
- serum concentration of bile acids in maternal blood and cord blood at (Demers and Darnell Jones), 146 (Comm. in brief)
- Pelvimetry, x-ray, evaluation of usefulness of: Comparison of Thoms and modified Ball methods with manual pelvimetry (Fine, Bracken, and Berkowitz), 15
- Pelvis, extraperitoneal surgical approach to, after radiation therapy or radical surgery (Schellhas), 367

- Perfusion, skin, in pregnancy (Katz and Sokal), 30
- Periclitral abscess, vulvar ectopic breast tissue mimicking (Reeves and Kaufman), 509 (Comm. in brief)
- Perinatal outcome and obstetric practices, effects of electronic fetal heart rate monitoring on (Mueller-Heubach et al.), 758
- Peritoneal (extra-) surgical approach to pelvis after radiation therapy or radical surgery (Schellhas), 367
- Pharmacologic induction of luteolysis in cynomolgus monkeys (*Macaca fascicularis*) (Shaikh, Shaikh, and Castracane), 672
- Physician and society: Individual and collective relationships (Nettles), 277
- Pituitary adenomas, prolactin-secreting, results of surgery in 114 patients with (Domingue, Richmond, and Wilson), 102
- Serum and tissue prolactin levels with ultrastructural correlation (Archer et al.), 646
- adrenal function in women treated with low doses of prednisone (Fujieda et al.), 962
- microadenoma, evidence for increased dopaminergic inhibition of secretion of thyroid-stimulating hormone in hyperprolactinemic patients with (Quigley and Yen), 653
- and ovarian responsiveness to graded gonadotropin releasing factor stimulation test in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- Placenta, conjoined ("Siamese") twin, unusual findings in (Wiegenstein and Iozzo), 744 (Comm. in brief)
- human, gestational changes in functional structure of, in relation to fetal growth: Morphometric study (Teasdale), 560
- previa, conservative aggressive management of (Cotton et al.), 687
- Placental amino acid uptake. V. Relationship to placental maturation in rat (Schlepphorst, Kelley, and Smith), 499
- bed, human: Electron microscopic study of trophoblastic invasion of spiral arteries (De Wolf et al.), 58
- lactogen, human, -binding substance, qualitative detection of, by radioassay (Heal and Gluck), 975
- protein(s) 5, circulating, detection of, in patients with trophoblastic tumors (Grudzinskas et al.), 866 (Comm. in brief)
- three other, discordance with: Ectopic production of "pregnancy-specific" beta-1 glycoprotein in vitro (Rosen et al.), 525
- tuberculosis in early and late pregnancy (Kaplan, Benirschke, and Tarzy), 858 (Comm. in brief)
- Plasma unconjugated estriol levels, lack of subhourly variations in, in pregnant diabetic patients in third trimester (Rao, Wilcourt, and Queenan), 543
- Plastic spatula, making smear with, III. Studies on distribution of abnormal cells in cytologic preparations (Rubio et al.), 843
- Pollution, environmental, and pregnancy: Risks and uncertainties for fetus and infant (Longo), 162
- Polycystic ovary disease, clinical and cytogenetic studies of patients with (Parker et al.), 656
- Polysaccharide, capsular, from type III, group B *Streptococcus*, determination of serum antibody to, II. Natural history of group B streptococcal colonization in pregnant woman and her offspring (Baker et al.), 39
- Postpartum hypopituitarism and hyperprolactinemia (Vaughn, Wiebe, and Hammond), 749 (Comm. in brief)
- Povidone-iodine liquid and gel, quantitative and qualitative effects of, on aerobic and anaerobic flora of female genital tract (Monif et al.), 432
- Prednisone, pituitary-adrenal function in women treated with low doses of (Fujieda et al.), 962
- Pre-ejection period as antepartum indicator of fetal well-being (Organ, Bernstein, and Hawrylyshyn), 810
- new computer technique for continuous measurement of, in human fetus: Physiologic significance of pre-ejection period patterns (Hawrylyshyn, Organ, and Bernstein), 801
- Pregnancy (pregnancies), acute poststreptococcal glomerulonephritis in: Case report with 18-year follow-up (Singson, Fisher, and Lindheimer), 857 (Comm. in brief)
- coccidioidomycosis complicating (McCoy, Ellenberg, and Killam), 739 (Comm. in brief)
- and contraception, attitudes of adolescents toward (Ryan and Sweeney), 358
- early and late, placental tuberculosis in (Kaplan, Benirschke, and Tarzy), 858 (Comm. in brief)
- environmental pollution and: Risks and uncertainties for fetus and infant (Longo), 162
- extramembranous: Unusual complication of amniocentesis (Vago and Chavkin), 511 (Comm. in brief)
- Pregnancy (pregnancies)—Cont'd
- induced hypertension, severe, cerebral edema in (Benedetti and Quilligan), 850 (Comm. in brief)
- morphologic features of anencephalic adrenal gland in (Gray and Abramovich), 491
- myth of goiter in (Levy et al.), 701
- normal, cortisol, 11-desoxycortisol, and 21-desoxycortisol concentrations in amniotic fluid during (Blankstein et al.), 781
- urodynamic studies in, and in puerperium (Isif, Ingemarsson, and Ulmsten), 696
- outcome, prenatal care and (Ryan, Sweeney, and Solola), 876
- upper genital tract changes and, in offspring exposed in utero to diethylstilbestrol (Kaufman et al.), 299
- primary tubal carcinoma in (Schinfeld and Winston), 512 (Comm. in brief)
- rhythmic changes in estriol excretion during (Isaksson et al.), 470
- skin perfusion in (Katz and Sokal), 30
- specific beta-1 glycoprotein, ectopic production of, in vitro: Discordance with three other placental proteins (Rosen et al.), 525
- term, fetal distress in (Haesslein and Niswander), 245
- total and free testosterone during (Bammann, Coulam, and Jiang), 293
- use of hyperalimentation and chemotherapy in: Case report (Webb), 263
- vaginal colonization with invasive *Escherichia coli* during (Amstey, Lewin, and Colaice), 534
- Pregnanediol glucuronides, urinary estrogen and, direct radioimmunoassay of, during menstrual cycle (Stanczyk, Miyakawa, and Goebelsmann), 443
- Pregnant diabetic patients, lack of subhourly variations in plasma unconjugated estriol levels in, in third trimester (Rao, Wilcourt, and Queenan), 543
- (non-), maternal, and fetal models, comparisons in response in: Role of prostaglandins in endotoxemia. I. Prostaglandins and pulmonary effect of experimental endotoxemia (Cefalo et al.), 53
- (non-) sheep, uterine vascular response to prostacyclin in (Resnik and Brink), 267
- and nonpregnant sheep, hemodynamic effects of isoxsuprine and terbutaline in (Nuwayhid et al.), 25
- patients, critically ill, invasive hemodynamic monitoring in: Role of Swan-Ganz catheterization (Berkowitz and Rafferty), 127 (Current developments)
- woman and her offspring, natural history of group B streptococcal colonization in. I. Colonization studies (Yow et al.), 34
- II. Determination of serum antibody to capsular polysaccharide from type III, group B *Streptococcus* (Baker et al.), 39
- Premature delivery, coital activity and (Rayburn and Wilson), 972
- infants weighing 1,500 grams or less, fetal heart rate monitoring in (Bowes, Gabbe, and Bowes), 791
- labor, infants of mothers treated with ethanol for (Zervoudakis, Krauss, and Fuchs), 713
- treatment of, with beta sympathomimetics: Results with isoxsuprine (Schenken et al.), 773
- menopause, thyroid autoimmunity, and myasthenia gravis (Williamson et al.), 893
- Prematurity, iatrogenic, avoiding, with elective repeat cesarean section without routine use of amniocentesis (Frigoletto et al.), 521
- Prenatal care and pregnancy outcome (Ryan, Sweeney, and Solola), 876
- diagnosis of neural tube defects. V. Value of amniotic fluid cholinesterase studies (Zeisel, Milunsky, and Blusztajn), 481
- Presentation, term frank breech, randomized management of: Study of 208 cases (Collea, Chein, and Quilligan), 235
- Pressor (roll-over) test, supine: Evaluation (Kuntz), 764
- Previa, placenta, conservative aggressive management of (Cotton et al.), 687
- Progesterone, estradiol, and estriol, serum, before and during induced labor (Kauppila et al.), 462
- Prolactin levels, newborn serum, relationship of, to respiratory distress syndrome and maternal hypertension (Grosso et al.), 569
- secreting pituitary adenomas, results of surgery in 114 patients with (Domingue, Richmond, and Wilson), 102
- Serum and tissue prolactin levels with ultrastructural correlation (Archer et al.), 646
- Prostacyclin, uterine vascular response to, in nonpregnant sheep (Resnik and Brink), 267

- Prostaglandin(s)  $E_2$  derivative, tissue-selective, improvement in artificial second-trimester abortion with (Schmide-Gollwitzer et al.), 867 (Comm. in brief)
- and 16-phenoxy prostaglandin  $E_2$  methyl sulfonamide, intravenous, for induction of fetal death in utero (Gruber and Baumgarten), 8
- suppositories, vaginal, and intrauterine extra-amniotic prostaglandins, comparison between, in management of fetal death in utero (Scher et al.), 769
- vaginal suppositories, management of intrauterine fetal death with (Lauersen, Cederqvist, and Wilson), 753 (Clinical opinion)
- effect of estrogen priming on induction of labor with (Luther et al.), 351
- $F_{20}$ , intra-amniotic instillation of, dilatation and evacuation versus, midtrimester abortion by: Randomized clinical trial (Grimes, Hulka, and McCutchen), 785
- methyl ester, 15(S)-15-methyl, administration, postovulatory intravaginal, ovum transport in rhesus monkey following (Eddy), 966
- role of, in endotoxemia: Comparisons in response in nonpregnant, maternal, and fetal models. I. Prostaglandins and pulmonary effect of experimental endotoxemia (Cefalo et al.), 53
- Proteases, methylumbelliferylguanidinobenzoate-reactive, in human amniotic fluid: Promising marker for intrauterine detection of cystic fibrosis (Walsh and Nadler), 978
- Protein(s) 5, circulating placental, detection of, in patients with trophoblastic tumors (Grudzinskas et al.), 866 (Comm. in brief)
- three other placental, discordance with: Ectopic production of "pregnancy-specific" beta-1 glycoprotein in vitro (Rosen et al.), 525
- Psychosexual functioning in symptomatic and asymptomatic women with and without signs of vaginitis (McGuire, Guzinski, and Holmes), 600
- Puerperal laparoscopic sterilization (McDonell), 910
- Puerperium, urodynamic studies in normal pregnancy and in (Iosif, Ingemarsson, and Ulmsten), 696
- Pulmonary effect of experimental endotoxemia, prostaglandins and, I. Role of prostaglandins in endotoxemia: Comparisons in response in nonpregnant, maternal, and fetal models (Cefalo et al.), 53
- R**
- Radiation therapy or radical surgery, extraperitoneal surgical approach to pelvis after (Schellhas), 367
- Radical hysterectomy in treatment of cervical cancer (Benedet et al.), 254
- surgery, radiation therapy or, extraperitoneal surgical approach to pelvis after (Schellhas), 367
- Radioassay, qualitative detection of human placental lactogen-binding substance by radioassay (Heal and Gluck), 975
- Radioimmunoassay, direct, of urinary estrogen and pregnanediol glucuronides during menstrual cycle (Stanczyk, Miyakawa, and Goebelsmann), 443
- Rape: Sexual assault (Hicks), 931
- Rectovaginal septal defects, anatomic classification of (Rosenshein, Genadry, and Woodruff), 439
- Releasing factor stimulation test, graded gonadotropin, pituitary and ovarian responsiveness to, in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- Remember the tune (Haynes), 638
- Renal stones, increased incidence of, in women with spontaneous abortion: Retrospective study (Honoré), 145 (Comm. in brief)
- Rent, womb (Pomerance, Schifrin, and Meredith), 486
- Reproductive significance of changes in endometrial cavity associated with exposure in utero to diethylstilbestrol (Pillsbury), 178
- Respiratory distress syndrome and maternal hypertension, relationship of newborn serum prolactin levels to (Grosso et al.), 569
- neonatal, antenatal corticosteroids to prevent: Risk versus benefit considerations (Depp et al.), 338
- Retardation, fetal growth, in cigarette-smoking mothers is not due to decreased maternal food intake (Haworth et al.), 719
- intrauterine growth, acid-base characteristics of fetuses with, during labor and delivery (Lin et al.), 553
- severe intrauterine growth, induction of, in Sprague-Dawley rat (Van Geijn et al.), 43
- Rh-D factor, blood group, in human trophoblast determined by immunofluorescent method (Goto, Nishi, and Tomoda), 707
- sensitized patients, changes in amniotic fluid optical density at 450  $m\mu$  in, after maternal hydrocortisone treatment (Anderson and Cordero), 820
- Ritodrine maintenance, oral, in treatment of preterm labor (Creasy et al.), 212
- Roll-over (supine pressor) test: Evaluation (Kuntz), 764
- Ruptured membranes, bacterial colonization of amniotic fluid in presence of (Miller et al.), 451
- S**
- Secreting, prolactin-, pituitary adenomas: Serum and tissue prolactin levels with ultrastructural correlation (Archer et al.), 646
- results of surgery in 114 patients with (Domingue, Richmond, and Wilson), 102
- Secretion of thyroid-stimulating hormone, evidence for increased dopaminergic inhibition of, in hyperprolactinemic patients with pituitary microadenoma (Quigley and Yen), 653
- Septal defects, rectovaginal, anatomic classification of (Rosenshein, Genadry, and Woodruff), 439
- Serum antibody to capsular polysaccharide from type III, group B *Streptococcus*, determination of; II. Natural history of group B streptococcal colonization in pregnant woman and her offspring (Baker et al.), 39
- concentration of bile acids in maternal blood and cord blood at parturition (Demers and Darnell Jones), 146 (Comm. in brief)
- enzymes in diagnosis of ovarian malignancy (Burrows), 140 (Comm. in brief)
- progesterone, estradiol, and estriol before and during induced labor (Kauppila et al.), 462
- prolactin levels, newborn, relationship of, to respiratory distress syndrome and maternal hypertension (Grosso et al.), 569
- and tissue prolactin levels with ultrastructural correlation: Prolactin-secreting pituitary adenomas (Archer et al.), 646
- Sexual assault: Rape (Hicks), 931
- "Siamese" (conjoined) twin placenta, unusual findings in (Wiegenstein and Iozzo), 744 (Comm. in brief)
- Sinus, uteroabdominal, following cesarean section (Dessouky and Bolan), 147 (Comm. in brief)
- Skin perfusion in pregnancy (Katz and Sokal), 30
- Smear, making, with plastic spatula, III. Studies on distribution of abnormal cells in cytologic preparations (Rubio et al.), 843
- Smoking, cigarette-, mothers, fetal growth retardation in, is not due to decreased maternal food intake (Haworth et al.), 719
- Society, physician and: Individual and collective relationships (Nettles), 277
- South Atlantic Association of Obstetricians and Gynecologists, transactions, forty-second annual meeting, 873-958
- Spatula, plastic, making smear with, III. Studies on distribution of abnormal cells in cytologic preparations (Rubio et al.), 843
- Squamous metaplasia, early physiologic, of cervix: Light and electron microscopic observations (Lawrence and Shingleton), 661
- Sterilization by cesarean hysterectomy (Britton), 887
- Kroener fimbriectomy, reversal of (Novy), 198
- puerperal laparoscopic (McDonell), 910
- Stones, renal, increased incidence of, in women with spontaneous abortion: Retrospective study (Honoré), 145 (Comm. in brief)
- Streptococcal colonization, group B, natural history of, in pregnant woman and her offspring. I. Colonization studies (Yow et al.), 34
- II. Determination of serum antibody to capsular polysaccharide from type III, group B *Streptococcus* (Baker et al.), 39
- (post-), glomerulonephritis, acute, in pregnancy: Case report with 18-year follow-up (Sington, Fisher, and Lindheimer), 857 (Comm. in brief)
- Streptococcus*, type III, group B, determination of serum antibody to capsular polysaccharide from, II. Natural history of group B streptococcal colonization in pregnant woman and her offspring (Baker et al.), 39
- Stress urinary incontinence, selection of primary operative procedure for (Peters and Thornton), 923
- Supine pressor (roll-over) test: Evaluation (Kuntz), 764
- Suppositories, prostaglandin  $E_2$  vaginal, management of intrauterine fetal death with (Lauersen, Cederqvist, and Wilson), 753 (Clinical opinion)

# Suppositories—Cont'd

- vaginal prostaglandin E<sub>2</sub>, and intrauterine extra-amniotic prostaglandins, comparison between, in management of fetal death in utero (Scher et al.), 769
- Surgery, radical, radiation therapy or, extraperitoneal surgical approach to pelvis after (Schellhas), 367
  - results of, in 114 patients with prolactin-secreting pituitary adenomas (Domingue, Richmond, and Wilson), 102
  - tubal and peritubal, without magnification: Analysis (Spadoni), 189
- Surgical approach, extraperitoneal, to pelvis after radiation therapy or radical surgery (Schellhas), 367
- obstetric, morphopathologic, and neonatal parameters, 300-year review of: Xiphopagus conjoined twins (Harper et al.), 517 (Current developments)
- procedures, abdominal, incidence of, in population undergoing abortion (King, Aizawa, and Burkman), 530
- Survival, fetal—What price (Kirkley), 873
- Swan-Ganz catheterization, role of: Invasive hemodynamic monitoring in critically ill pregnant patients (Berkowitz and Rafferty), 127 (Current developments)
- Sympathetic innervation, influence of alpha-methyl dopa on, in newborn rabbit heart (Hoskins and Friedman), 496
- Sympathomimetics, beta, treatment of premature labor with: Results with isoxsuprine (Schenken et al.), 773
- Syndrome, respiratory distress, and maternal hypertension, relationship of newborn serum prolactin levels to (Grosso et al.), 569
- neonatal, antenatal corticosteroids to prevent: Risk versus benefit considerations (Depp et al.), 338

## T

- Teaching obstetric service, experience in: Alternative birthing center (Barton et al.), 377
- Teenagers, 1,762, experience in: Adolescent contraceptive use (Edwards et al.), 583
- Tension, carbon dioxide, effect of oxygen and of, on incidence of apnea in fetal lambs (Bissonnette et al.), 575
- Terbutaline, isoxsuprine and, hemodynamic effects of, in pregnant and nonpregnant sheep (Nuwayhid et al.), 25
- Term frank breech presentation, randomized management of: Study of 208 cases (Colle, Chien, and Quilligan), 235
- (pre-) labor, oral ritodrine in treatment of (Creasy et al.), 212
- pregnancies, fetal distress in (Haesslein and Niswander), 245
- Test(s), graded gonadotropin releasing factor stimulation, pituitary and ovarian responsiveness to, in women using low-estrogen or regular type of oral contraceptive (Spellacy et al.), 109
- nonstress, variable decelerations and: Indication of cord compromise (O'Leary, Andrinopoulos, and Giordano), 704
- "normal," predictive reliability of, in prevention of antepartum death, VI. Antepartum fetal heart rate testing (Druzin, Gratacos, and Paul), 746 (Comm. in brief)
- supine pressor (roll-over): Evaluation (Kuntz), 764
- Testing, antepartum fetal heart rate. VI. Predictive reliability of "normal" tests in prevention of antepartum death (Druzin, Gratacos, and Paul), 746 (Comm. in brief)
- prospective antepartum fetal heart rate, clinical implications of (Devoe), 983
- Testosterone, total and free, during pregnancy (Bammann, Coulam, and Jiang), 293
- Thermal monitoring, model for, in cryosurgery (Wilchins et al.), 854
- Thoms and modified Ball methods, comparison of, with manual pelvimetry: Evaluation of usefulness of x-ray pelvimetry (Fine, Bracken, and Berkowitz), 15
- Thyroid autoimmunity, myasthenia gravis, and premature menopause (Williamson et al.), 893
- stimulating hormone, evidence for increased dopaminergic inhibition of secretion of, in hyperprolactinemic patients with pituitary microadenoma (Quigley and Yen), 653
- Tissue prolactin levels, serum and, with ultrastructural correlation: Prolactin-secreting pituitary adenomas (Archer et al.), 646
- selective prostaglandin E<sub>2</sub> derivative, improvement in artificial second-trimester abortion with (Schmidt-Gollwitzer et al.), 867 (Comm. in brief)
- ovular ectopic breast, mimicking periductal abscess (Reeves and Kaufman), 509 (Comm. in brief)
- Titers, elevated, of beta subunit of human chorionic gonadotropin in oophorectomized women being treated for trophoblastic disease (Hatch et al.), 122

- Transactions, forty-second annual meeting, South Atlantic Association of Obstetricians and Gynecologists, 873-958
- forty-sixth annual meeting, Pacific Coast Obstetrical and Gynecological Society, 155-275
- forty-seventh annual meeting, Central Association of Obstetricians and Gynecologists, 277-391
- Transmissible venereal neoplasia: Case report (Stein), 864 (Comm. in brief)
- Trimester, multiple congenital anomalies in fetus exposed to 5-fluorouracil during (Stephens et al.), 747 (Comm. in brief)
- second-, abortion, artificial, improvement in, with new tissue-selective prostaglandin E<sub>2</sub> derivative (Schmidt-Gollwitzer et al.), 867 (Comm. in brief)
- third, lack of subhourly variations in plasma unconjugated estril levels in pregnant patients in (Rao, Wilcourt, and Queenan), 543
- Trophoblast, human, blood group Rh-D factor in, determined by immunofluorescent method (Goto, Nishi, and Tomoda), 707
- Trophoblastic disease, elevated titers of beta subunit of human chorionic gonadotropin in oophorectomized women being treated for (Hatch et al.), 122
- invasion of spiral arteries, electron microscopic study of: Human placental bed (De Wolf et al.), 58
- neoplasia, gestational, management of liver metastasis from (Grumbine et al.), 959
- tumors, detection of circulating placental protein 5 in patients with (Grudzinskas et al.), 866 (Comm. in brief)
- Tubal carcinoma, primary, in pregnancy (Schinfeld and Winston), 512 (Comm. in brief)
- ligation, vaginal—Is infection significant risk? (Miesfeld, Giarratano, and Moyers), 183
- and peritubal surgery without magnification: Analysis (Spadoni), 189
- Tuberculosis, placental, in early and late pregnancy (Kaplan, Benirschke, and Tarzy), 858 (Comm. in brief)
- Tumor(s) marker of gynecologic cancer:  $\beta_2$ -microglobulin (Trope, Löfdberg, and Johnsson), 743 (Comm. in brief)
- response to chemotherapy, predicting: New indication for colposcopy (Marin and Crisp), 862
- trophoblastic, detection of circulating placental protein 5 in patients with (Grudzinskas et al.), 866 (Comm. in brief)
- Twin(s), diethylstilbestrol-exposed monozygotic, discordant for cervicovaginal clear cell adenocarcinoma (Sandberg and Christian), 220
- placenta, conjoined ("Siamese"), unusual findings in (Wiegenstein and Iozzo), 744 (Comm. in brief)
- xiphopagus conjoined: 300-year review of obstetric, morphopathologic, neonatal, and surgical parameters (Harper et al.), 617 (Current developments)

## U

- Ultrasound, fetal movements and: Effect of maternal intravenous glucose administration (Gelman et al.), 459
- United States population groups, two, studies on growth-inhibiting property of amniotic fluids from (Appelbaum et al.), 579
- Urinary estrogen and pregnanediol glucuronides, direct radioimmunoassay of, during menstrual cycle (Stanczyk, Miyakawa, and Goebelsmann), 443
- incontinence, stress, selection of primary operative procedure for (Peters and Thornton), 923
- Urodynamic studies in normal pregnancy and in puerperium (Isif, Ingemarsson, and Ulmsten), 696
- Urology, female, diagnostic procedures in (Ostergard and McCarthy), 401 (Clinical opinion)
- Uterine responses, vascular and, to dobutamine and dopamine in gravid ewe (Fishburne et al.), 944
- vascular response to prostacyclin in nonpregnant sheep (Resnik and Brink), 267
- Utero, comparison between vaginal prostaglandin E<sub>2</sub> suppositories and intrauterine extra-amniotic prostaglandins in management of fetal death in (Scher et al.), 769
- intravenous prostaglandin E<sub>2</sub> and 16-phenoxystyrene prostaglandin E<sub>2</sub> methyl sulfonylamide for induction of fetal death in (Gruber and Baumgarten), 8
- reproductive significance of changes in endometrial cavity associated with exposure in, to diethylstilbestrol (Pillsbury), 178
- upper genital tract changes and pregnancy outcome in offspring exposed in, to diethylstilbestrol (Kaufman et al.), 299

- Uteroabdominal sinus following cesarean section (Dessouky and Bolan), 147 (Comm. in brief)
- Uterus, time interval between luteinizing hormone peak and recovery of ova by transcervical flushing of, in normal women, 111. Studies on duration of ovum transport by human oviduct (Diaz, Ortiz, and Croxatto), 116
- V
- Vagina, basal cell-like carcinoma in upper third of (Naves, Monti, and Chichoni), 136 (Comm. in brief)
- Vaginal colonization with invasive *Escherichia coli* during pregnancy (Amstey, Lewin, and Colaice), 534
- (intra-) 15(S)-15-methyl prostaglandin  $F_{2\alpha}$ -methyl ester administration, postovulatory, ovum transport in rhesus monkey following (Eddy), 966
- prostaglandin  $E_2$  suppositories and intrauterine extra-amniotic prostaglandins, comparison between, in management of fetal death in utero (Scher et al.), 769
- suppositories, prostaglandin  $E_2$ , management of intrauterine fetal death with (Lauersen, Cederqvist, and Wilson), 753 (Clinical opinion)
- tubal ligation—Is infection significant risk? (Miesfeld, Giarratano, and Moyers), 183
- Vaginismus, therapy of, by hypnotic desensitization (Fuchs), 1 (Clinical opinion)
- Vaginitis, *Haemophilus vaginalis*, after twenty-five years (Gardner), 385
- psychosexual functioning in symptomatic and asymptomatic women with and without signs of (McGuire, Guzinski, and Holmes), 600
- Variable decelerations and nonstress test: Indication of cord compromise (O'Leary, Andrinopoulos, and Giordano), 704
- Vascular response, uterine, to prostacyclin in nonpregnant sheep (Resnik and Brink), 267
- and uterine responses to dobutamine and dopamine in gravid ewe (Fishburne et al.), 944
- Venereal neoplasia, transmissible: Case report (Stein), 864 (Comm. in brief)
- Verrucous lesions of female genitalia. I. Giant condylomata (Partridge et al.), 412
- II. Verrucous carcinoma (Partridge et al.), 419
- Virus shedding, asymptomatic, after herpes genitalis (Adam et al.), 827
- Viscosity, increased blood, in young women using oral contraceptives (Lowe et al.), 840
- Volumes, fetal body and fetal head, estimation of: Description of technique and nomograms for 18 to 41 weeks of gestation (Martinez and Barton), 78
- Vulvar carcinoma, invasive, significance of histologic alterations adjacent to (Buscema, Stern, and Woodruff), 902
- ectopic breast tissue mimicking periductal abscess (Reeves and Kaufman), 509 (Comm. in brief)
- W
- Washington State, out-of-hospital delivery in, 1975 to 1977 (Shy, Frost, and Ullom), 547
- Weighing 1,500 grams or less, fetal heart rate monitoring in premature infants (Bowes, Gabbe, and Bowes), 791
- Weight, very-low-birth-, infants, changing trends of neonatal and postneonatal deaths in (Hack et al.), 797
- Womb rent (Pomerance, Schiffrin, and Meredith), 486
- X
- Xiphopagus conjoined twins: 300-year review of obstetric, morphopathologic, neonatal, and surgical parameters (Harper et al.), 617 (Current developments)
- X-ray pelvimetry, evaluation of usefulness of: Comparison of Thoms and modified Ball methods with manual pelvimetry (Fine, Bracken, and Berkowitz), 15
- Y
- Young women using oral contraceptives, increased blood viscosity in (Lowe et al.), 840

## **Editors**

JOHN I. BREWER, *Editor in Chief*

FREDERICK P. ZUSPAN, E. J. QUILLIGAN, *Editors*

ALBERT B. GERBIE, *Associate Editor*

# Subject index\*

## A

- Abdominal cavity, prolapsed umbilical cord into, in woman with previous cesarean section (Lenke and Osterkamp), 1224 (Comm. in brief)
- circumference measurements, sonar fetal, percentile ranks of (Tamura and Sabbagha), 475 (Clinical opinion)
- sacral colpopexy (Cowan and Morgan), 348 (Comm. in brief)
- Abortion, midtrimester, induced by hyperosmolar urea and prostaglandin  $F_{2\alpha}$  in patients with previous cesarean section: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55
- related admissions, pattern of acute pelvic inflammatory disease in (Sinnathuray et al.), 868
- second-trimester induced, epidural morphine analgesia in (Magora et al.), 260
- Abscess, tuboovarian, contraceptive practice and (Edelman and Berger), 541
- retrospective review (Ginsburg et al.), 1055
- Acidosis, fetal death or, effect of: Maternofetal electrical potential difference in conscious sheep (Weedon et al.), 422
- severe hypokalemia and: Potential complication of beta-adrenergic treatment (Gross and Sokol), 1225 (Comm. in brief)
- Adenocarcinoma, endometrial, arising in adenomyosis (Hernandez and Woodruff), 827
- unsuspected endometrial, hysterosalpingography in young infertile patients with (Menczer, Frenkel, and Serr), 352 (Comm. in brief)
- Adenoma, human prolactin-secreting pituitary, monolayer and suspension culture of (Kletzky et al.), 660
- prolactin-secreting pituitary, use of thyrotropin-releasing hormone in distinguishing (Marrs, Bertoli, and Kletzky), 620
- Adenomyosis, endometrial adenocarcinoma arising in (Hernandez and Woodruff), 827
- Adrenal hyperplasia, congenital, adult manifestation of, due to incomplete 21-hydroxylase deficiency mimicking polycystic ovarian disease (Lobo and Goebelsmann), 720
- Adrenergic agonists, effect of, on progesterone production by human placental cells in culture (Caritis and Zeleznik), 677
- beta-, treatment, potential complication of: Severe hypokalemia and acidosis (Gross and Sokol), 1225 (Comm. in brief)
- Adult manifestation of congenital adrenal hyperplasia due to incomplete 21-hydroxylase deficiency mimicking polycystic ovarian disease (Lobo and Goebelsmann), 720
- Africa, problems and approaches in surveillance and control of sexually transmitted agents associated with pelvic inflammatory disease in (Nsanze), 1088
- Age, fetal gestational, sources of error in (Zador et al.), 344 (Comm. in brief)
- gestational, estimation of, and maternal serum steroid concentrations: Total estriol (Penney), 745
- Agensis, ipsilateral renal, obstructed hemivagina and, double uterus associated with (Rock and Jones), 339
- Agonists, adrenergic, effect of, on progesterone production by human placental cells in culture (Caritis and Zeleznik), 677
- Alcohol consumption, maternal, birth weight, and minor physical anomalies (Tennes and Blackard), 774
- Aldosterone, renin-, axis, prolactin and, in human pregnancy (Ho Yuen and Korn), 738
- Altitude, high, re-evaluation of birth weights at (Cotton et al.), 220
- American women, postpartum lymphocytic thyroiditis in: Spectrum of thyroid dysfunction (Fein, Goldman, and Weintraub), 504
- Aminopeptidase assay, serum cystine, early primary diagnosis of ovarian cancer and detection of recurrence by (Kalinkov and Buchholz), 1148
- Amniocentesis, acceptance of, by low-income patients in urban hospital (Marion et al.), 11
- genetic, in twin gestations (Elias et al.), 169
- Amniotic fluid creatine kinase, diagnosis of fetal death in utero with (Stempel and Lott), 1173
- dynamics, current concepts of (Seeds), 575 (Current developments)

## Amniotic fluid—cont'd

- effect of blood in, on detection of phosphatidylglycerol (Strassner et al.), 697
- human, characterization of triacylglycerol lipase activity in (Merger et al.), 68
- copper and ceruloplasmin activity in (Chan et al.), 257
- maternal plasma, and cord blood, analysis of, for human breast gross cystic disease fluid protein (Haagensen et al.), 25
- obtained vaginally, lecithin/sphingomyelin ratio in (Goldstein et al.), 232 (Comm. in brief)
- prolactin, further evidence for decidual source of: Decidual production of prolactin in late gestation (Rosenberg, Maslar, and Riddick), 681
- Ampicillin, transplacental: Inhibitory concentrations in neonatal serum (Kraybill, Chaney, and McCarthy), 793
- Analgesia, epidural morphine, in second-trimester induced abortion (Magora et al.), 260
- Anemia, sickle cell, automated erythrocytapheresis for, during pregnancy (Key et al.), 731
- and sickle cell—hemoglobin C disease, outcome of pregnancy in (Milner, Jones, and Döbler), 239
- Angiography, fluorescein, in hypertensive pregnancies (Donkers and Jansonijs), 461 (Comm. in brief)
- Anions and electrolytes, blood, during ritodrine infusion in preterm labor (Kirkpatrick, Quenon, and Desir), 523
- Anomalies, minor physical, birth weight, and maternal alcohol consumption (Tennes and Blackard), 774
- Antepartum fetal heart rate testing, alternative to (Rayburn et al.), 223 (Current investigation)
- heart rate monitoring, nonstressed: Implications of decelerations after spontaneous contractions (Visser et al.), 429
- Anthropometric data, comparative newborn, in symmetric versus asymmetric intrauterine growth retardation (Crane and Kopta), 518
- Antigen(s), human trophoblast, maternal and fetal immune responses to (Taylor), 293
- OCA, human ovarian tumor—associated, study of ovarian cancer patients using radioimmunoassay for (Knauf and Urbach), 1222 (Comm. in brief)
- Antigenic type, same principal outer membrane, gonococcal salpingitis is less likely to recur with *Neisseria gonorrhoeae* of (Buchanan et al.), 978
- Artery blood flow, ovarian, uterine and, in rhesus monkey near term (Abitbol, Demeter, and Benarosh), 414
- Assay of alpha subunit of human chorionic gonadotropin, utility of, in management of gestational trophoblastic malignancies (Quigley, Tyrey, and Hammond), 545
- serum cystine aminopeptidase, early primary diagnosis of ovarian cancer and detection of recurrence by (Kalinkov and Buchholz), 1148
- Automated erythrocytapheresis for sickle cell anemia during pregnancy (Key et al.), 731
- Autonomic blockade, umbilical venous blood flow and its distribution before and during, in fetal lambs (Edelstone et al.), 703
- nervous system, influence of, I. Mechanisms of beat-to-beat variability in heart rate of neonatal lamb (Zugaib et al.), 444

## B

- Bacterial clearance in murine uterus and oviduct, I. Host defenses in acute pelvic inflammatory disease (Chow, Carlson, and Sorrell), 1003
- Bangladesh, pelvic infections following gynecologic procedures in (Begum), 875
- Beat-to-beat variability, heart rate and, analysis of: Interval difference index (van Geijn et al.), 246
- mechanisms of, in heart rate of neonatal lamb. I. Influence of autonomic nervous system (Zugaib et al.), 444
- II. Effects of hypoxia (Zugaib et al.), 453
- Beta-adrenergic treatment, potential complication of: Severe hypokalemia and acidosis (Gross and Sokol), 1225 (Comm. in brief)

\*September 1, 1-120; September 15, 121-238; October 1, 239-356; October 15, 357-474; November 1, 475-598; November 15, 599-726; December 1, part 1, 727-844; part 2, 845-1112; December 15, 1113-1262.

- Binding globulin, sex hormone-, capacity, serum, and percentage of free estradiol on postmenopausal women with and without endometrial carcinoma (Nisker et al.), 632
- proteins, receptor-like, for testosterone and progesterone in human ovary (Milwidsky et al.), 93
- Biology of infectious agents of salpingitis and recent advances in methods of detection, overview of (Mårdh), 933
- Biophysics of developing heart. I. Force-interval relationship (Anderson, Manring, and Crenshaw), 33
- II. Interaction of force-interval relationship with inotropic state and muscle length (preload) (Anderson, Manring, and Crenshaw), 33
- Biohythms of primate uterus (*Macaca mulatta*) during labor and delivery (Harbert and Spisso), 686
- Biparietal diameter(s), discordancy of, after 28 weeks' gestation: Sonar cephalometry in twin pregnancy (Leveno et al.), 615
- serial ultrasonographic, for prediction of estimated date of confinement (O'Brien, Coddington, and Cefalo), 467 (Comm. in brief)
- Birth weight(s) at high altitude, re-evaluation of (Cotton et al.), 220
- minor physical anomalies, and maternal alcohol consumption (Tennes and Blackard), 774
- Bladder fullness, urinary, effect of, on fundal height measurements (Worthen and Bustillo), 759
- physiology, effect of radical hysterectomy on (Forney), 374
- Blood in amniotic fluid, effect of, on detection of phosphatidylglycerol (Strassner et al.), 697
- anions and electrolytes during ritodrine infusion in preterm labor (Kirkpatrick, Quenon, and Desir), 523
- cord, amniotic fluid, and maternal plasma, analysis of, for human breast gross cystic disease fluid protein (Haagensen et al.), 25
- flow response, umbilical, to embolization of uterine circulation (Clapp et al.), 60
- umbilical venous, and its distribution before and during autonomic blockade in fetal lambs (Edelstone et al.), 703
- uterine and ovarian artery, in rhesus monkey near term (Abitbol, Demeter, and Benarosh), 414
- loss at delivery, consideration of, as percentage of estimated blood volume (Nelson), 1117 (Clinical opinion)
- pressure differences, postural, in pregnancy (Van Dongen et al.), 1
- pure fetal, from umbilical cord obtained at delivery: Experience with 125 consecutive cases (MacKenzie and Maclean), 1214
- volume, estimated, consideration of blood loss at delivery as percentage of (Nelson), 1117 (Clinical opinion)
- Bones, fetal limb, ultrasound measurement of (Queenan, O'Brien, and Campbell), 297
- Books received, 238, 474, 598, 1236
- Brain uptake of meperidine in fetal lamb (Szeto et al.), 528
- "Breast is best," translating, from theory to practice: Obstetrician's opportunity (Winikoff and Baer), 105 (Current developments)
- gross cystic disease fluid protein, human, analysis of amniotic fluid, maternal plasma, and cord blood for (Haagensen et al.), 25
- Breathing, fetal, and fetal movements, effects of maternal cigarette smoking on (Thaler, Goodman, and Dawes), 282
- sleep state and, myometrial activity and, relationship between, in fetal sheep throughout last third of gestation (Nathanielsz et al.), 653
- Buccal Pitocin, plasma oxytocin levels and disappearance rate after (Dawood, Ylikorkala, and Fuchs), 20
- Butorphanol, human perinatal distribution of (Pittman et al.), 797
- C
- C-reactive protein as predictor of infectious morbidity with premature rupture of membranes (Evans et al.), 648
- Cancer, cervical, site of recurrence of, after radical hysterectomy (Webb and Symmonds), 813
- ovarian, early primary diagnosis of, and detection of recurrence by serum cystine aminopeptidase assay (Kalinkov and Buchholz), 1148
- second-look operations in (Schwartz and Smith), 1124
- patients, ovarian, study of, using radioimmunoassay for human ovarian tumor-associated antigen OCA (Knauf and Urbach), 1222 (Comm. in brief)
- Stage I ovarian, role of adjuvant therapy in (Hreshchysyn et al.), 139
- vulvar, progressive histobiologic alterations in development of (Buscema and Woodruff), 146
- Carbohydrate metabolism with three months of low-estrogen contraceptive use (Spellacy, Buhí, and Birk), 151
- Carbon dioxide laser, topical 5-fluorouracil and, biologic aspects and treatment with: Vaginal intraepithelial neoplasia (Petrilli et al.), 321
- Carcinoma, endometrial, serum sex hormone-binding globulin capacity and percentage of free estradiol in postmenopausal women with and without (Nisker et al.), 637
- significance of residual disease after radiotherapy in: Clinicopathologic correlation (Macasaet et al.), 557
- Stages IB and IIA, of cervix, analysis of factors contributing to treatment failures in (Chung et al.), 550
- Cardiac output, distribution of, in unstressed pregnant guinea pig (Peeters, Grutters, and Martin), 1177
- Cardiovascular function during hypoxemia, effect of fetal heart rate on (Cohn, Piasecki, and Jackson), 1190
- Cefamandole nafate solution, intrauterine irrigation with, at cesarean section: Preliminary report (Long, Rudd, and Dillon), 755
- Cell(s) anemia, sickle, automated erythrocytapheresis for, during pregnancy (Key et al.), 731
- and sickle cell-hemoglobin C disease, outcome of pregnancy in (Milner, Jones, and Döbler), 239
- exchange, red, in pregnancy complicated by major hemoglobinopathy (Keeling et al.), 185
- human placental, in culture, effect of adrenergic agonists on progesterone production by (Caritis and Zeleznik), 677
- tumors, granulosa: Comparison of survival in patients and matched controls (Björkholm), 329
- Cephalometry, sonar, in twin pregnancy: Discordancy of biparietal diameter after 28 weeks' gestation (Leveno et al.), 615
- Ceruloplasmin activity, copper and, in human amniotic fluid (Chan et al.), 257
- Cervical cancer, site of recurrence of, after radical hysterectomy (Webb and Symmonds), 813
- dilation, morphologic and histochemical evidence for occurrence of collagenolysis and for role of neutrophilic polymorphonuclear leukocytes during (Junqueira et al.), 273
- Cervix, Stages IB and IIA carcinoma of, analysis of factors contributing to treatment failures in (Chung et al.), 550
- Cesarean section, intrauterine irrigation with cefamandole nafate solution at: Preliminary report (Long, Rudd, and Dillon), 755
- previous, midtrimester abortion induced by hyperosmolar urea and prostaglandin  $F_{2\alpha}$  in patients with: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55
- prolapsed umbilical cord into abdominal cavity in women with (Lenke and Osterkamp), 1224 (Comm. in brief)
- Chlamydia trachomatis* in acute salpingitis (Paavonen), 957
- infection, antepartum, and route of delivery, relationship to: puerperal infectious morbidity (Wager et al.), 1028
- in Fitz-Hugh-Curtis syndrome (Wager et al.), 1034
- in patients with laparoscopically verified acute salpingitis (Ripa et al.), 960
- and *Mycoplasma hominis*, experimental pelvic inflammatory disease provoked by, in grivet monkeys (Møller, Freundt, and Mårdh), 990
- Chlamydial salpingitis, experimental, in guinea pig (Sweet et al.), 952
- Chorea, oral contraceptive-induced (Kaplinksky, Thaler, and Frankl), 237 (Comm. in brief)
- Choriocarcinoma, evidence that thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of: Thyroid function in gestational trophoblastic neoplasia (Nisula and Taliadouros), 77
- specific components, presence of: Isoelectric heterogeneity of human chorionic gonadotropin (Yazaki et al.), 189
- Chorion laeve permeability, human and sheep, to glucose,  $\beta$ -hydroxybutyrate, and glycerol, comparison of (Seeds et al.), 604
- Chorionic gonadotropin(s), human, human placental lactogen, and pregnancy-specific  $\beta_2$ -glycoprotein, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- isoelectric heterogeneity of: Presence of choriocarcinoma specific components (Yazaki et al.), 189
- menopausal and, use of, for induction of ovulation (Schwartz et al.), 801
- suppression of, by progestational steroids (Wilson, Jawad, and Dickson), 708
- utility of assay of alpha subunit of, in management of gestational trophoblastic malignancies (Quigley, Tyrey, and Hammond), 545

- Human chorionic gonadotropin—cont'd  
thyrotropic activity of, mediates thyrotoxicosis of choriocarcinoma, evidence that: Thyroid function in gestational trophoblastic neoplasia (Nisula and Taliadourou), 77
- Chromosomal diagnosis, first-trimester fetal, using endocervical lavage: Negative evaluation (Goldberg et al.), 436
- Cigarette smoking, maternal, effects of, on fetal breathing and fetal movements (Thaler, Goodman, and Dawes), 282
- obesity, and energy consumption, maternal, relation of, to infant size (Haworth et al.), 1185
- Circulation, uterine, umbilical blood flow response to embolization of (Clapp et al.), 60
- Circumference measurements, sonar fetal abdominal, percentile ranks of (Tamura and Sabbagha), 475 (Clinical opinion)
- Climacteric symptoms, use of medroxyprogesterone acetate for relief of (Morrison et al.), 99
- Clinic, problem-oriented gynecology, for patients with sexually transmitted diseases (Spence, Smith, and Vaeth), 1109
- Clinical opinion, 121-127, 357-363, 475-479, 1117-1119
- Collagenolysis, morphologic and histochemical evidence for occurrence of, and for role of neutrophilic polymorphonuclear leukocytes during cervical dilation (Junqueira et al.), 273
- Colombia, comparative evaluation of two methods of natural family planning in (Medina et al.), 1142
- Colpopexy, abdominal sacral (Cowan and Morgan), 348 (Comm. in brief)
- Communications in brief, 227-237, 343-353, 459-470, 1219-1230
- Computer-assisted analysis of therapy of acute salpingitis (Bell and James), 1048
- Conception control, estradiol implants for (Nezhat et al.), 1151
- Confinement, serial ultrasonographic biparietal diameters for prediction of estimated date of (O'Brien, Coddington, and Cefalo), 467 (Comm. in brief)
- Congenital adrenal hyperplasia, adult manifestation of, due to incomplete 21-hydroxylase deficiency mimicking polycystic ovarian disease (Lobo and Goebelsmann), 720
- toxoplasmosis, what can be done to prevent (Wilson and Remington), 357 (Clinical opinion)
- Conjugates, its, plasma estriol and, following oral and vaginal administration of estriol to postmenopausal women: Correlations with gonadotropin levels (Schiff et al.), 1137
- Conscious sheep, maternofetal electrical potential difference in: Effect of fetal death or acidosis (Weedon et al.), 422
- Consultants for the American Journal of Obstetrics and Gynecology, 1113
- Contraception and etiology of pelvic inflammatory disease: new perspectives (Senanayake and Kramer), 852
- oral, -induced chorea (Kaplinksky, Thaler, and Frankl), 237 (Comm. in brief)
- practice and tuboovarian abscess (Edelman and Berger), 541
- use, low-estrogen, carbohydrate metabolism with three months of (Spellacy, Bui, and Birk), 151
- Contraction(s), spontaneous, implications of decelerations after: Nonstressed antepartum heart rate monitoring (Visser et al.), 429
- strength, measure of, in labor: Area and amplitude (Scitichik), 727
- Copper and ceruloplasmin activity in human amniotic fluid (Chan et al.), 257
- effect of, on spermatozoal motility and viability evaluated objectively with aid of multiple-exposure photography method (Makler and Zinder), 156
- Cord blood, amniotic fluid, and maternal plasma, analysis of, for human breast gross cystic disease fluid protein (Haagensen et al.), 25
- prolapsed umbilical, into abdominal cavity in woman with previous cesarean section (Lenke and Osterkamp), 1224 (Comm. in brief)
- umbilical, pure fetal blood from, obtained at fetoscopy: Experience with 125 consecutive cases (MacKenzie and Maclean), 1214
- Correspondence, 471-473, 587-591, 838-842, 1231-1235
- Cortisol and 17 $\alpha$ -hydroxyprogesterone caproate, suppression of threatened premature labor by administration of: Comparison with ritodrine (Kauppila et al.), 404
- metabolism, evidence that fetal membranes are not involved in: Study of dichorionic twin pregnancies (López Bernal et al.), 1168
- Countries, developing, microbiologic techniques for diagnosis of pelvic inflammatory disease in (Osoba), 1091
- Countries—cont'd  
industrialized, incidence, prevalence, and trends of acute pelvic inflammatory disease and consequences in (Weström), 880
- Cranial and craniocervical masses, fetal: Ultrasound characteristics and differential diagnosis (Sabbagha et al.), 511
- Craniocervical masses, fetal cranial and: Ultrasound characteristics and differential diagnosis (Sabbagha et al.), 511
- Creatine kinase, amniotic fluid, diagnosis of fetal death in utero with (Stempel and Lott), 1173
- Cuban experience: problems and approaches in surveillance and control of sexually transmitted diseases (Wertheim, Abreu, and Valdes-Vivo), 1082
- Culdocentesis, rare complication of: Accidental puncture of pelvic kidney (Granat et al.), 233 (Comm. in brief)
- Culture, effect of adrenergic agonists on progesterone production by human placental cells in (Caritis and Zeleznik), 677
- monolayer and suspension, of human prolactin-secreting pituitary adenoma (Kletzky et al.), 660
- and serologic findings, differences in some clinical and laboratory parameters in acute salpingitis related to (Svensson et al.), 1017
- Culturing, selective maternal, to identify group B streptococcal infection (Pasnick, Mead, and Philip), 480
- Curettage, suction, for elective termination of pregnancy, electrocardiographic changes induced by (Mabee, Dunn, and Sherer), 181
- Current developments, 105-117, 575-586
- investigation, 223-226
- Cystic disease fluid protein, human breast gross, analysis of amniotic fluid, maternal plasma, and cord blood for (Haagensen et al.), 25
- hygroma, fetal, ultrasonographic diagnosis of (O'Brien, Cefalo, and Bair), 464 (Comm. in brief)
- teratomas, benign, in postmenopausal women (Gordon et al.), 1120
- Cystine aminopeptidase assay, serum, early primary diagnosis of ovarian cancer and detection of recurrence by (Kalinkov and Buchholz), 1148
- Cystometrogram, standing (Weprin and Zuspan), 369
- D
- Death, fetal, or acidosis, effect of: Maternofetal electrical potential difference in conscious sheep (Weedon et al.), 422
- in utero, diagnosis of, with amniotic fluid creatine kinase (Stempel and Lott), 1173
- Decelerations after spontaneous contractions, implications of: Nonstressed antepartum heart rate monitoring (Visser et al.), 429
- Decidua, human, stimulatory activity of serum on prolactin production by (Luciano et al.), 665
- Decidual production of prolactin in late gestation: Further evidence for decidual source of amniotic fluid prolactin (Rosenberg, Maslar, and Riddick), 681
- Defenses, host, in acute pelvic inflammatory disease. I. Bacterial clearance in murine uterus and oviduct (Chow, Carlson, and Sorrell), 1003
- Dehydroepiandrosterone sulfate secretion, prolactin modulation of (Lobo et al.), 632
- stable prolactin level after enhanced estradiol production (Kauppila and Ylikorkala), 271
- Delivery, consideration of blood loss at, as percentage of estimated blood volume (Nelson), 1117 (Clinical opinion)
- labor and, biorhythms of primate uterus (*Macaca mulatta*) during (Harbert and Spisso), 686
- hemodynamics in patients with severe toxemia during (Rafferty and Berkowitz), 263
- route of, and antepartum *Chlamydia trachomatis* infection, relationship to: puerperal infectious morbidity (Wager et al.), 1028
- Deoxycorticosterone, plasma levels of, throughout pregnancy of normal women and women who developed pregnancy-induced hypertension. II. Hormone production during pregnancy in primigravida patient (Parker et al.), 626
- Device(s), intrauterine, risk of pelvic inflammatory disease among users of, irrespective of previous pregnancy (Osser, Liedholm, and Sjöberg), 864
- use and risk of pelvic inflammatory disease (Burkman), 861
- Dexamethasone, intravenous, for prevention of neonatal respiratory distress: Prospective controlled study (Young et al.), 203
- Diabetes, gestational, detection of, by means of ultrasonic diagnosis of excessive fetal growth (Grandjean et al.), 790

- Diabetic and toxemic term placentas, glycosaminoglycan patterns in (Wasserman et al.), 769
- Diameter, biparietal, discordancy of, after 28 weeks' gestation: Sonar cephalometry in twin pregnancy (Leveno et al.), 615
- Dichorionic twin pregnancies, study of: Evidence that fetal membranes are not involved in cortisol metabolism (López Bernal et al.), 1168
- Dietary fat, maternal, effect of, on fetal pulmonary maturation in rats (Nelson et al.), 466 (Comm. in brief)
- Dilation, cervical, morphologic and histochemical evidence for occurrence of collagenolysis and for role of neutrophilic polymorphonuclear leukocytes during (Junqueira et al.), 273
- Disease(s), acute pelvic inflammatory, differential diagnosis of (Jacobson), 1006
- host defenses in. I. Bacterial clearance in murine uterus and oviduct (Chow, Carlson, and Sorrell), 1003
- incidence, prevalence, and trends of, and consequences in industrialized countries (Weström), 880
- pattern of, in abortion-related admissions (Sinnathuray et al.), 868
- experimental pelvic inflammatory, provoked by *Chlamydia trachomatis* and *Mycoplasma hominis* in grivet monkeys (Møller, Freundt, and Mårdh), 990
- fluid protein, human breast gross cystic, analysis of amniotic fluid, maternal plasma, and cord blood for (Haagensen et al.), 25
- gonococcal pelvic inflammatory: case-finding observations (Potterat et al.), 1101
- hypothalamic and pituitary, response to repetitive luteinizing hormone-releasing hormone stimulation in (Wentz and Andersen), 364
- monitoring, trophoblastic: Evaluation of pregnancy-specific  $\beta_1$ -glycoprotein (O'Brien et al.), 313
- pelvic inflammatory, 1980 (St. John, Brown, and Tyler), 845 (Editorial)

- response in sheep, stimulus summation and tachyphylaxis in (Clewett, Stys, and Meschia), 485
- Ethiopia, pelvic inflammatory disease and puerperal sepsis in. I. Etiology (Perine et al.), 969
- II. Treatment (Duncan et al.), 1059
- Etiologic factors in pelvic inflammatory disease in Sudanese women (Rushwan), 877
- Etiology. I. Pelvic inflammatory disease and puerperal sepsis in Ethiopia (Perine et al.), 969
- and epidemiology, overview of: salpingitis (Holmes, Eschenbach, and Knapp), 893
- Extraction, vacuum, complication of: *Streptococcus sanguis* sepsis and meningitis (Heath et al.), 343 (Comm. in brief)

## F

- Fallopian tube mucosa, human, toxin for: gonococcal lipopolysaccharide (Gregg, Melly, and McGee), 981
- Family planning, natural, in Colombia, comparative evaluation of two methods of (Medina et al.), 1142
- Far East, problems in surveillance and control of sexually transmitted agents associated with pelvic inflammatory disease in (Rajan), 1071
- Fat, maternal dietary, effect of, on fetal pulmonary maturation in rats (Nelson et al.), 466 (Comm. in brief)
- "Female echo": Prenatal determination of female fetus by ultrasound (Schotten and Giese), 463 (Comm. in brief)
- Fertility, their relation to, after attempts at reversal, tubal lesions subsequent to sterilization and (Vasquez et al.), 86
- Fetal abdominal circumference measurements, sonar, percentile ranks of (Tamura and Sabbagha), 475 (Clinical opinion)
- blood, pure, from umbilical cord obtained at fetoscopy: Experience with 125 consecutive cases (MacKenzie and Maclean), 1214
- breathing and fetal movements, effects of maternal cigarette smoking on (Thaler, Goodman, and Dawes), 282
- chromosomal diagnosis, first-trimester, using endocervical lavage: Negative evaluation (Goldberg et al.), 436
- cranial and craniocervical masses: Ultrasound characteristics and differential diagnosis (Sabbagha et al.), 511
- cystic hygroma, ultrasonographic diagnosis of (O'Brien, Cefalo, and Bair), 464 (Comm. in brief)
- death or acidosis, effect of: Maternofetal electrical potential difference in conscious sheep (Weedon et al.), 422
- in utero, diagnosis of, with amniotic fluid creatine kinase (Stempel and Lott), 1173
- gestational age, sources of error in (Zador et al.), 344 (Comm. in brief)
- growth, excessive, detection of gestational diabetes by means of ultrasonic diagnosis of (Grandjean et al.), 790
- heart rate, effect of, on cardiovascular function during hypoxemia (Cohn, Piasecki, and Jackson), 1190
- modified technique for monitoring, during intrauterine transfusion (Schiffrin and Platt), 1220 (Comm. in brief)
- monitoring, intrapartum. IV. Observations on elective and nonelective fetal heart rate monitoring (Krebs et al.), 213
- testing, antepartum, alternative to (Rayburn et al.), 223 (Current investigation)
- immune responses, maternal and, to human trophoblast antigens (Taylor), 293
- lamb(s), brain uptake of meperidine in (Szeto et al.), 528
- effect of in utero intravenous administration of thyroxine and other hormones on lung fluid lecithin/sphingomyelin ratio in (Nwosu et al.), 459 (Comm. in brief)
- umbilical venous blood flow and its distribution before and during autonomic blockade in (Edelstone et al.), 703
- limb bones, ultrasound measurement of (Queenan, O'Brien, and Campbell), 297
- membranes are not involved in cortisol metabolism, evidence that: Study of dichorionic twin pregnancies (López Bernal et al.), 1168
- motion, clinical significance of (Rayburn), 210
- Fetal—cont'd
- and neonatal sinusoidal heart rate pattern, significance of: Further clinical observations in Rh incompatibility (Elliott et al.), 227 (Comm. in brief)
- outcome, placental size during early pregnancy and: Preliminary report of sequential ultrasonographic study (Hoogland, de Haan, and Martin), 441
- surgery during pregnancy and (Brodsky et al.), 1165
- pulmonary maturation, effect of maternal dietary fat on, in rats (Nelson et al.), 466 (Comm. in brief)
- sheep, comparison of continuous transcutaneous and continuous intravascular  $PO_2$  measurement in (Jansen et al.), 670
- relationship between myometrial activity and sleep state and breathing in, throughout last third of gestation (Nathanielsz et al.), 653
- Fetoscopy, pure fetal blood from umbilical cord obtained at: Experience with 125 consecutive cases (MacKenzie and Maclean), 1214
- Fetus, female, prenatal determination of, by ultrasound: "Female echo" (Schotten and Giese), 463 (Comm. in brief)
- Fibroleiomyomas, multiple pulmonary (Tedeschi), 468 (Comm. in brief)
- Fitz-Hugh-Curtis syndrome, *Chlamydia trachomatis* infection in (Wager et al.), 1034
- Fluorescein angiography in hypertensive pregnancies (Donkers and Janonius), 461 (Comm. in brief)
- Fluorouracil, 5-, topical, and carbon dioxide laser, biologic aspects and treatment with: Vaginal intraepithelial neoplasia (Petrilli et al.), 321
- Follicle-stimulating hormone, progesterone, estradiol-17 $\beta$ , and luteinizing hormone, plasma, temporal relationships between ovulation and defined changes in concentration of. I. Probit analysis (World Health Organization Task Force), 383
- Force-interval relationship. I. Biophysics of developing heart (Anderson, Manning, and Crenshaw), 33
- interaction of, with inotropic state and muscle length (preload), II. Biophysics of developing heart (Anderson, Manning, and Crenshaw), 44
- Fundal height measurements, effect of urinary bladder fullness on (Worthen and Bustillo), 759

## G

- Gap junctions, presence of, in myometrium of women during various stages of menstruation (Garfield and Hayashi), 569
- Genetic amniocentesis in twin gestations (Elias et al.), 169
- Genital epithelia, human, scanning electron microscopy of attachment of *Neisseria gonorrhoeae* colony phenotypes to surfaces of (Draper et al.), 818
- sphincters, human, relaxation of, by neuropeptide vasoactive intestinal polypeptide (Walls et al.), 337
- tract, female, malacoplakia of (Chalvardjian et al.), 391
- tuberculosis in women (Falk, Ludviksson, and Agren), 974
- Gestation(s), late, decidual production of prolactin in: Further evidence for decidual source of amniotic fluid prolactin (Rosenberg, Maslar, and Riddick), 681
- normal human, interrelationships of human chorionic gonadotropin, human placental lactogen, and pregnancy-specific  $\beta_2$ -glycoprotein during (Braunstein et al.), 1205
- relationship between myometrial activity and sleep state and breathing in fetal sheep throughout last third of (Nathanielsz et al.), 653
- twin, genetic amniocentesis in (Elias et al.), 169
- 28 weeks', discordancy of biparietal diameter after: Sonar cephalometry in twin pregnancy (Leveno et al.), 615
- Gestational age, estimation of, and maternal serum steroid concentrations: Total estriol (Penney), 745
- fetal, sources of error in (Zador et al.), 344 (Comm. in brief)
- diabetes, detection of, by means of ultrasonic diagnosis of excessive fetal growth (Grandjean et al.), 790
- trophoblastic malignancies, utility of assay of alpha subunit of human chorionic gonadotropin in management of (Quigley, Tyrey, and Hammond), 545
- neoplasia, late recurrences of (Vaughn, Surwit, and Hammond), 73
- thyroid function in: Evidence that thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of choriocarcinoma (Nisula and Taliadouros), 77

- Glands and stroma of human endometrium, peroxidase activity in (Holinka and Gursipde), 599
- Glandular inclusions, benign, in para-aortic lymph nodes: Cause for false positive lymphangiography (Schneider, Walsh, and Goplerud), 350 (Comm. in brief)
- Globulin, sex hormone-binding, capacity, serum, and percentage of free estradiol in postmenopausal women with and without endometrial carcinoma (Niskier et al.), 632
- Glucose,  $\beta$ -hydroxybutyrate, and glycerol, comparison of human and sheep chorion laeve permeability to (Seeds et al.), 604
- Glycerol, glucose, and  $\beta$ -hydroxybutyrate, comparison of human and sheep chorion laeve permeability to (Seeds et al.), 604
- Glycoprotein,  $\beta_1$ -, pregnancy-specific, evaluation of: Trophoblastic disease monitoring (O'Brien et al.), 313
- human chorionic gonadotropin, and human placental lactogen, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- as prognostic indicator in complications of early pregnancy (Ho and Jones), 253
- Glycosaminoglycan composition of normal human placentas, changes in, with maturation (Wasserman et al.), 763
- patterns in diabetic and toxemic term placentas (Wasserman et al.), 769
- Gonadal dysgenesis, XY, in three siblings (Phansey et al.), 133
- Gonadotropin(s), chorionic, thyrotropic activity of, mediates thyrotoxicosis of choriocarcinoma, evidence that: Thyroid function in gestational trophoblastic neoplasia (Nisula and Taliadouras), 77
- human chorionic, human placental lactogen, and pregnancy-specific  $\beta_1$ -glycoprotein, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- isoelectric heterogeneity of: Presence of choriocarcinoma specific components (Yazaki et al.), 189
- suppression of, by progestational steroids (Wilson, Jawad, and Dickson), 708
- utility of assay of alpha subunit of, in management of gestational trophoblastic malignancies (Quigley, Tyrey, and Hammond), 545
- menopausal and chorionic, use of, for induction of ovulation (Schwartz et al.), 801
- levels, correlations with: Plasma estriol and its conjugates following oral and vaginal administration of estriol to postmenopausal women (Schiff et al.), 1137
- Gonococcal infection in women with pelvic inflammatory disease in Lusaka, Zambia (Ratnam, Din, and Chatterjee), 965
- lipopolysaccharide: toxin for human fallopian tube mucosa (Gregg, Melly, and McGee), 981
- pelvic inflammatory disease: case-finding observations (Potterat et al.), 1101
- salpingitis is less likely to recur with *Neisseria gonorrhoeae* of same principal outer membrane antigenic type (Buchanan et al.), 978
- Gonorrhea in emergency department: management, case follow-up, and contact tracing of cases in women (Curran et al.), 1105
- and female infertility in rural Uganda (Arya, Taber, and Nsanze), 929
- and pelvic inflammatory disease, trends for, in England and Wales and for gonorrhea in defined population (Adler), 901
- Gossypol, administration of, for menorrhagia, endometrial changes after (Kuo-Fen et al.), 1227 (Comm. in brief)
- Granulosa cell tumors: Comparison of survival in patients and matched controls (Björkholm), 329
- Growth, excessive fetal, detection of gestational diabetes by means of ultrasonic diagnosis of (Grandjean et al.), 790
- retardation, intrauterine, symmetric versus asymmetric, comparative newborn anthropometric data in (Crane and Kopta), 518
- H**
- Heart, developing, biophysics of: I. Force-interval relationship (Anderson, Manring, and Crenshaw), 33
- II. Interaction of force-interval relationship with inotropic state and muscle length (preload) (Anderson, Manring, and Crenshaw), 33
- rate and beat-to-beat variability, analysis of: Interval difference index (van Geijn et al.), 246
- fetal, effect of, on cardiovascular function during hypoxemia (Cohn, Piasecki, and Jackson), 1190
- Heart rate, fetal—cont'd
- modified technique for monitoring, during intrauterine transfusion (Schiffrin and Platt), 1220 (Comm. in brief)
- monitoring, intrapartum fetal. IV. Observations on elective and nonelective fetal heart rate monitoring (Krebs et al.), 213
- nonstressed antepartum: Implications of decelerations after spontaneous contractions (Visser et al.), 429
- of neonatal lamb, mechanisms of beat-to-beat variability in. I. Influence of autonomic nervous system (Zugaib et al.), 444
- II. Effects of hypoxia (Zugaib et al.), 453
- pattern, fetal and neonatal sinusoidal, significance of: Further clinical observations in Rh incompatibility (Elliott et al.), 227 (Comm. in brief)
- testing, antepartum fetal, alternative to (Rayburn et al.), 223 (Current investigation)
- Height measurements, fundal, effect of urinary bladder fullness on (Worthen and Bustillo), 759
- Hematocritometry in presence of normal menstruation (Drake and O'Brien), 346 (Comm. in brief)
- Hemivagina, obstructed, and ipsilateral renal agenesis, double uterus associated with (Rock and Jones), 339
- Hemodynamic(s) observations in evacuation of molar pregnancy (Cotton et al.), 6
- in patients with severe toxemia during labor and delivery (Rafferty and Berkowitz), 263
- Hemoglobin C, sickle cell-, disease, sickle cell anemia and, outcome of pregnancy in (Milner, Jones, and Döbler), 239
- Hemoglobinopathy, major, red cell exchange in pregnancy complicated by (Keeling et al.), 185
- Heterogeneity, isoelectric, of human chorionic gonadotropin: Presence of choriocarcinoma specific components (Yazaki et al.), 189
- High altitude, re-evaluation of birth weights at (Cotton et al.), 220
- Histobiologic alterations, progressive, in development of vulvar cancer (Buscema and Woodruff), 146
- Histochemical evidence, morphologic and, for occurrence of collagenolysis and for role of neutrophilic polymorphonuclear leukocytes during cervical dilation (Junqueira et al.), 273
- Hormone(s) levels, serum, tissue concentration in relation to developmental stage and to: Progestogen-dependent endometrial protein in women (Joshi et al.), 1131
- luteinizing, follicle-stimulating hormone, progesterone, and estradiol-17 $\beta$ , plasma, temporal relationships between ovulation and defined changes in concentration of. I. Probit analysis (World Health Organization Task Force), 383
- releasing hormone stimulation, repetitive, response to, in hypothalamic and pituitary disease (Wentz and Andersen), 364
- other, thyroxine and, effect of in utero intravenous administration of, on lung fluid lecithin/sphingomyelin ratio in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- production during pregnancy in primigravid patient. II. Plasma levels of deoxycorticosterone throughout pregnancy of normal women and women who developed pregnancy-induced hypertension (Parker et al.), 626
- sex, -binding globulin capacity, serum, and percentage of free estradiol in postmenopausal women with and without endometrial carcinoma (Niskier et al.), 632
- thyrotropin-releasing, use of, in distinguishing prolactin-secreting pituitary adenoma (Marrs, Bertolli, and Kletzky), 620
- Hospital(s) (multi-) twin study, Northwestern University. I. Description of 588 twin pregnancies and associated pregnancy loss, 1971 to 1975 (Keith et al.), 781
- short-stay, in United States, frequency and distribution of salpingitis and pelvic inflammatory disease in (Jones, Zaidi, and St. John), 905
- urban, acceptance of amniocentesis by low-income patients in (Marion et al.), 11
- Host defenses in acute pelvic inflammatory disease. I. Bacterial clearance in murine uterus and oviduct (Chow, Carlson, and Sorrell), 1003
- Human chorionic gonadotropin, human placental lactogen, and pregnancy-specific  $\beta_1$ -glycoprotein, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- isoelectric heterogeneity of: Presence of choriocarcinoma specific components (Yazaki et al.), 189

- Human chorionic gonadotropin—cont'd  
 suppression of, by progestational steroids (Wilson, Jawad, and Dickson), 708  
 utility of assay of alpha subunit of, in management of gestational trophoblastic malignancies (Quigley, Tyrey, and Hammond), 545  
 menopausal and chorionic gonadotropins, use of, for induction of ovulation (Schwartz et al.), 801  
 Hydroxybutyrate,  $\beta$ -, glycerol, and glucose, comparison of human and sheep chorion laeve permeability to (Seeds et al.), 604  
 Hydroxylase, 21-, deficiency, incomplete, mimicking polycystic ovarian disease, adult manifestation of congenital adrenal hyperplasia due to (Lobo and Goebelsmann), 720  
 Hydroxyprogesterone, 17 $\alpha$ -, caproate, cortisol and, suppression of threatened premature labor by administration of: Comparison with ritodrine (Kauppila et al.), 404  
 Hydroxysteroid,  $\Delta^3,3\beta$ -, dehydrogenase activity, steroid concentrations and, in human placenta (Ferre et al.), 500  
 Hygroma, fetal cystic, ultrasonographic diagnosis of (O'Brien, Cefalo, and Bair), 464 (Comm. in brief)  
 Hyperosmolar urea and prostaglandin F $_{2\alpha}$ , midtrimester abortion induced by, in patients with previous cesarean section: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55  
 Hyperplasia, congenital adrenal, adult manifestation of, due to incomplete 21-hydroxylase deficiency mimicking polycystic ovarian disease (Lobo and Goebelsmann), 720  
 Hypertension, pregnancy-induced, women who developed, plasma levels of deoxycorticosterone throughout pregnancy of normal women and, II. Hormone production during pregnancy in primigravida patient (Parker et al.), 626  
 Hypertensive pregnancies, fluorescein angiography in (Donkers and Jansonius), 461 (Comm. in brief)  
 Hypokalemia, severe, and acidosis: Potential complication of beta-adrenergic treatment (Gross and Sokol), 1225 (Comm. in brief)  
 Hypothalamic and pituitary disease, response to repetitive luteinizing hormone-releasing hormone stimulation in (Wentz and Andersen), 364  
 Hypoxemia, effect of fetal heart rate on cardiovascular function during (Cohn, Piasecki, and Jackson), 1190  
 Hypoxia, effects of, II. Mechanisms of beat-to-beat variability in heart rate of neonatal lamb (Zugaib et al.), 453  
 Hysterectomy and oophorectomy, subdermal estradiol pellets following (Lobo et al.), 714  
 radical, effect of, on bladder physiology (Forney), 374  
 site of recurrence of cervical cancer after (Webb and Symmonds), 813  
 Hysterosalpingography in young infertile patients with unsuspected endometrial adenocarcinoma (Menczer, Frenkel, and Serr), 352 (Comm. in brief)
- I
- Immune responses, maternal and fetal, to human trophoblast antigens (Taylor), 293  
 Immunization, tularemia, in early pregnancy (Albrecht, Cefalo, and O'Brien), 1226 (Comm. in brief)  
 Immunologic nonidentity, apparent, of human placental and endometrial 17 $\beta$ -estradiol dehydrogenase (Marovitz et al.), 643  
 Implants, estradiol, for conception control (Nezhat et al.), 1151  
 Inclusions, benign glandular, in para-aortic lymph nodes: Cause for false positive lymphangiography (Schneider, Walsh, and Goplerud), 350 (Comm. in brief)  
 Incontinence, urinary stress, real-time ultrasonography in evaluation of (White et al.), 235 (Comm. in brief)  
 Incubated plasma of pregnant rabbits, increased pressor activity in (Katz, Gordon, and Creasy), 741  
 India, Delhi, etiology of pelvic infections treated by gynecologic service of Kasturba Hospital (Kochar), 872  
 Industrialized countries, incidence, prevalence, and trends of acute pelvic inflammatory disease and consequences in (Weström), 880  
 Infant size, relation of maternal cigarette smoking, obesity, and energy consumption to (Haworth et al.), 1185  
 Infection(s), acute pelvic, clinical aspects of progressive stages of (Cooperman and Ruiz), 1026  
 antepartum *Chlamydia trachomatis*, and route of delivery, relationship to: puerperal infectious morbidity (Wager et al.), 1028  
 Infection(s)—cont'd  
*Chlamydia trachomatis*, in Fitz-Hugh-Curtis syndrome (Wager et al.), 1034  
 in patients with laparoscopically verified acute salpingitis (Ripa et al.), 960  
 gonococcal, in women with pelvic inflammatory disease in Lusaka, Zambia (Ratnam, Din, and Chatterjee), 965  
 group B streptococcal, selective maternal culturing to identify (Pasnich, Mead, and Philip), 480  
 pelvic, etiology of, treated by gynecologic service of Kasturba Hospital, Delhi, India (Kochar), 872  
 following gynecologic procedures in Bangladesh (Begum), 875  
 Infectious agents of salpingitis, their biology, and recent advances in methods of detection, overview of (Mardh), 933  
 morbidity, C-reactive protein as predictor of, with premature rupture of membranes (Evans et al.), 648  
 puerperal: relationship to route of delivery and to antepartum *Chlamydia trachomatis* infection (Wager et al.), 1028  
 Infertile patients, young, with unsuspected endometrial adenocarcinoma, hysterosalpingography in (Menczer, Frenkel, and Serr), 352 (Comm. in brief)  
 Infertility, female, and gonorrhea in rural Uganda (Arya, Taber, and Nsanze), 929  
 and pelvic inflammatory disease with tubal obstruction, microbiology of specimens obtained by laparoscopy from controls and from patients with: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022  
 treatment of endometriosis at laparoscopy for (Sulewski et al.), 128  
 Inflammatory disease, acute pelvic, differential diagnosis of (Jacobson), 1006  
 host defenses in. I. Bacterial clearance in murine uterus and oviduct (Chow, Carlson, and Sorrell), 1003  
 incidence, prevalence, and trends of, and consequences in industrialized countries (Weström), 880  
 pattern of, in abortion-related admissions (Sinnathuray et al.), 868  
 experimental pelvic, provoked by *Chlamydia trachomatis* and *Mycoplasma hominis* in grivet monkeys (Møller, Freundt, and Mardh), 990  
 gonococcal pelvic: case-finding observations (Potterat et al.), 1101  
 pelvic, 1980 (St. John, Brown, and Tyler), 845 (Editorial)

 and consequences in developing world (Muir and Belsey), 913  
 economic consequences of, in United States (Curran), 848  
 etiologic factors in, in Sudanese women (Rushwan), 877  
 etiology of, and contraception: new perspectives (Senanayake and Kramer), 852  
 gonococcal infection in women with, in Lusaka, Zambia (Ratnam, Din, and Chatterjee), 965  
 and gonorrhea, trends for, in England and Wales and for gonorrhea in defined population (Adler), 901  
 or infertility with tubal obstruction, microbiology of specimens obtained by laparoscopy from controls and from patients with: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022  
 microbiologic techniques for diagnosis of, in developing countries (Osoba), 1091  
 problems and approaches to control and surveillance of sexually transmitted agents associated with, in United States (Brown and Wiesner), 1096  
 in surveillance and control of sexually transmitted agents associated with, in Africa (Nsanze), 1088  
 proposals for surveillance and control of sexually transmitted diseases associated with, in South America (de la Torre), 1078  
 of surveillance and control of sexually transmitted agents associated with, in Far East (Rajan), 1071  
 and puerperal sepsis in Ethiopia. I. Etiology (Perine et al.), 969  
 II. Treatment (Duncan et al.), 1059  
 risk of, among users of intrauterine devices, irrespective of previous pregnancy (Osser, Liedholm, and Sjöberg), 864  
 and intrauterine device use (Burkman), 861  
 and salpingitis, frequency and distribution of, in short-stay hospitals in United States (Jones, Zaidi, and St. John), 905  
 surveillance, prevention, and control of sexually transmitted agents associated with (Meheus), 1064  
 treatment of (Rees), 1042

- Influenza virus, failure to demonstrate transplacental transmission of: Fatal influenza pneumonia in pregnancy (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
- Influenzal pneumonia, fatal, in pregnancy: Failure to demonstrate transplacental transmission of influenza virus (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
- Infusion, ritodrine, blood anions and electrolytes during, in preterm labor (Kirkpatrick, Quenon, and Desir), 523
- Inotropic state and muscle length (preload), interaction of force-interval relationship with, II. Biophysics of developing heart (Anderson, Manning, and Crenshaw), 44
- International Symposium on Pelvic Inflammatory Disease, 845-1112
- Intestinal polypeptide, neuropeptide vasoactive, relaxation of human female genital sphincters by (Wallis et al.), 337
- Intraepithelial neoplasia, vaginal: Biologic aspects and treatment with topical 5-fluorouracil and carbon dioxide laser (Petrilli et al.), 321
- Intrapartum fetal heart rate monitoring. IV. Observations on elective and nonelective fetal heart rate monitoring (Krebs et al.), 213
- numerical scoring system, simplified (Morrison et al.), 175
- Intrauterine device(s), risk of pelvic inflammatory disease among users of, irrespective of previous pregnancy (Osser, Liedholm, and Sjöberg), 864
- use and risk of pelvic inflammatory disease (Burkman), 861
- growth retardation, symmetric versus asymmetric, comparative newborn anthropometric data in (Crane and Kopta), 518
- irrigation with cefamandole nafate solution at cesarean section: Preliminary report (Long, Rudd, and Dillon), 755
- transfusion(s), modified technique for monitoring fetal heart rate during (Schiffrin and Platt), 1220 (Comm. in brief)
- ultrasound-facilitated (Acker et al.), 1200
- Intravascular, continuous,  $P_{O_2}$  measurement, continuous transcutaneous and, comparison of, in fetal sheep (Jansen et al.), 670
- Intravenous administration, in utero, of thyroxine and other hormones, effect of, on lung fluid lecithin/sphingomyelin ratio in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- dexamethasone for prevention of neonatal respiratory distress: Prospective controlled study (Young et al.), 203
- Irrigation, intrauterine, with cefamandole nafate solution at cesarean section: Preliminary report (Long, Rudd, and Dillon), 755
- Isoelectric heterogeneity of human chorionic gonadotropin: Presence of choriocarcinoma specific components (Yazaki et al.), 189
- Items, 118-120, 354-356, 592-597, 843-844

## K

- Kidney, pelvic, accidental puncture of: Rare complication of culdocentesis (Granat et al.), 233 (Comm. in brief)
- Kinase, amniotic fluid creatine, diagnosis of fetal death in utero with (Stempel and Lott), 1173

## L

- Labor and delivery, biorhythms of primate uterus (*Macaca mulatta*) during (Harbert and Spisso), 686
- hemodynamics in patients with severe toxemia during (Rafferty and Berkowitz), 263
- measure of contraction strength in: Area and amplitude (Seitchik), 727
- premature, estimation of success in treatment of: Applicability of prolongation index in double-blind, controlled, randomized trial (Penney and Daniell), 345 (Comm. in brief)
- preterm, blood anions and electrolytes during ritodrine infusion in (Kirkpatrick, Quenon, and Desir), 523
- threatened premature, suppression of, by administration of cortisol and 17 $\alpha$ -hydroxyprogesterone caproate: Comparison with ritodrine (Kauppila et al.), 404
- Laboratory and clinical parameters, some, differences in, in acute salpingitis related to culture and serologic findings (Svensson et al.), 1017
- Lavage, endocervical, first-trimester fetal chromosomal diagnosis using: Negative evaluation (Goldberg et al.), 436
- Lactogen, human placental, pregnancy-specific  $\beta_2$ -glycoprotein, and human chorionic gonadotropin, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- Laparoscopically verified acute salpingitis, *Chlamydia trachomatis* infection in patients with (Ripa et al.), 960

- Laparoscopy in diagnosis and management of patients with suspected salpingo-oophoritis (Ledger), 1012
- for infertility, treatment of endometriosis at (Sulewski et al.), 128
- microbiology and pathogenesis of acute salpingitis as determined by: what is appropriate site to sample? (Sweet et al.), 985
- of specimens obtained by, from controls and from patients with pelvic inflammatory disease or infertility with tubal obstruction: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022
- operative, technical progress in pelvic surgery via (Semm and Mettler), 121
- Laser, carbon dioxide, topical 5-fluorouracil and, biologic aspects and treatment with: Vaginal intraepithelial neoplasia (Petrilli et al.), 321
- Lecithin/sphingomyelin ratio in amniotic fluid obtained vaginally (Goldstein et al.), 232 (Comm. in brief)
- lung fluid, effect of in utero intravenous administration of thyroxine and other hormones on, in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- Leiomyoma, uterine, L-5 radiculopathy secondary to, in primigravid patient (Heffernan, Fraser, and Purdy), 460 (Comm. in brief)
- Leukocytes, neutrophilic polymorphonuclear, morphologic and histochemical evidence for occurrence of collagenolysis and for role of, during cervical dilation (Junqueira et al.), 273
- Limb bones, fetal, ultrasound measurement of (Queenan, O'Brien, and Campbell), 297
- Lipopolysaccharide, gonococcal: toxin for human fallopian tube mucosa (Gregg, Melly, and McGee), 981
- Low-income patients in urban hospital, acceptance of amniocentesis by (Marion et al.), 11
- Lung fluid lecithin/sphingomyelin ratio, effect of in utero intravenous administration of thyroxine and other hormones on, in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- Lupus erythematosus, systemic, pregnancy and (Houser et al.), 409
- Luteinizing hormone, follicle-stimulating hormone, progesterone, and estradiol-17 $\beta$ , plasma, temporal relationships between ovulation and defined changes in concentration of. I. Probit analysis (World Health Organization Task Force), 383
- releasing hormone stimulation, repetitive, response to, in hypothalamic and pituitary disease (Wentz and Andersen), 364
- Lymph nodes, para-aortic, benign glandular inclusions in: Cause for false positive lymphangiography (Schneider, Walsh, and Goplerud), 350 (Comm. in brief)
- Lymphocyst, para-aortic (Helmkamp et al.), 395
- Lymphocytic thyroiditis, postpartum, in American women: Spectrum of thyroid dysfunction (Fein, Goldman, and Weintraub), 504

## M

- Malacoplakia of female genital tract (Chalvardjian et al.), 391
- Malignancies, gestational trophoblastic, utility of assay of alpha subunit of human chorionic gonadotropin in management of (Quigley, Tyrey, and Hammond), 545
- Massachusetts, pelvic inflammatory disease among women presenting to emergency rooms of hospitals in (O'Hare, Fiumara, and McCormack), 909
- Masses, fetal cranial and craniocervical: Ultrasound characteristics and differential diagnosis (Sabbagha et al.), 511
- Maternal alcohol consumption, birth weight, and minor physical anomalies (Tennes and Blackard), 774
- cigarette smoking, effects of, on fetal breathing and fetal movements (Thaler, Goodman, and Dawes), 282
- obesity, and energy consumption, relation of, to infant size (Haworth et al.), 1185
- culturing, selective, to identify group B streptococcal infection (Pasnich, Mead, and Philip), 480
- dietary fat, effect of, on fetal pulmonary maturation in rats (Nelson et al.), 466 (Comm. in brief)
- and fetal immune responses to human trophoblast antigens (Taylor), 293
- plasma, cord blood, and amniotic fluid, analysis of, for human breast gross cystic disease fluid protein (Haagensen et al.), 25
- serum steroid concentrations, estimation of gestational age and: Total estriol (Penney), 745
- versus neonatal transport: Perinatal transport to regional perinatal center in metropolitan area (Modanlou et al.), 1157

- Maternofetal electrical potential difference in conscious sheep: Effect of fetal death or acidosis (Weedon et al.), 422
- Maturation, changes in glycosaminoglycan composition of normal human placentas with (Wasserman et al.), 763
- fetal pulmonary, effect of maternal dietary fat on, in rats (Nelson et al.), 466 (Comm. in brief)
- neurological, possible acceleration of, following high-risk pregnancy (Amiel-Tison), 303
- Medroxyprogesterone acetate, use of, for relief of climacteric symptoms (Morrison et al.), 99
- Membrane(s) antigenic type, same principal outer, gonococcal salpingitis is less likely to recur with *Neisseria gonorrhoeae* of (Buchanan et al.), 978
- fetal, are not involved in cortisol metabolism, evidence that: Study of dichorionic twin pregnancies (López Bernal et al.), 1168
- premature rupture of, C-reactive protein as predictor of infectious morbidity with (Evans et al.), 648
- Meningitis, *Streptococcus sanguis* sepsis and: Complication of vacuum extraction (Heath et al.), 343 (Comm. in brief)
- Menopausal and chorionic gonadotropins, human, use of, for induction of ovulation (Schwartz et al.), 801
- Menorrhagia, endometrial changes after administration of gossypol for (Kuo-Fen et al.), 1227 (Comm. in brief)
- Menstruation, normal, hematocritometry in presence of (Drake and O'Brien), 346 (Comm. in brief)
- presence of gap junctions in myometrium of women during various stages of (Garfield and Hayashi), 569
- Meperidine, brain uptake of, in fetal lamb (Szeto et al.), 528
- Metabolism, carbohydrate, with three months of low-estrogen contraceptive use (Spellacy, Buih, and Birk), 151
- cortisol, evidence that fetal membranes are not involved in: Study of dichorionic twin pregnancies (López Bernal et al.), 1168
- prostaglandin, early steps in, in human placenta (Jarabak), 534
- Metabolites, prostaglandin  $F_{2\alpha}$ , in plasma and urine during pseudo-pregnancy in rabbit (Satoh et al.), 748
- Metronidazole-resistant strains, three, of *Trichomonas vaginalis* from United States (Müller et al.), 808
- Metropolitan area, perinatal transport to regional perinatal center in: Maternal versus neonatal transport (Modanlou et al.), 1157
- Microbiologic techniques for diagnosis of pelvic inflammatory disease in developing countries (Osoba), 1091
- Microbiology and pathogenesis of acute salpingitis as determined by laparoscopy: what is appropriate site to sample? (Sweet et al.), 985
- of specimens obtained by laparoscopy from controls and from patients with pelvic inflammatory disease or infertility with tubal obstruction: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022
- Microscopy, scanning electron, of attachment of *Neisseria gonorrhoeae* colony phenotypes to surfaces of human genital epithelia (Draper et al.), 818
- Midtrimester abortion induced by hyperosmolar urea and prostaglandin  $F_{2\alpha}$  in patients with previous cesarean section: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55
- Modeling, in vitro, of acute salpingitis caused by *Neisseria gonorrhoeae* (Draper et al.), 996
- Molar pregnancy, hemodynamic observations in evacuation of (Cotton et al.), 6
- Monitoring fetal heart rate during intrauterine transfusion, modified technique for (Schiffrin and Platt), 1220 (Comm. in brief)
- intrapartum fetal heart rate. IV. Observations on elective and nonelective fetal heart rate monitoring (Krebs et al.), 213
- nonstressed antepartum heart rate: Implications of decelerations after spontaneous contractions (Visser et al.), 429
- trophoblastic disease: Evaluation of pregnancy-specific  $\beta_1$ -glycoprotein (O'Brien et al.), 313
- Monolayer and suspension culture of human prolactin-secreting pituitary adenoma (Kletzky et al.), 660
- Morbidity, infectious, C-reactive protein as predictor of, with premature rupture of membranes (Evans et al.), 648
- puerperal infectious: relationship to route of delivery and to antepartum *Chlamydia trachomatis* infection (Wager et al.), 1028
- Morphine analgesia, epidural, in second-trimester induced abortion (Magora et al.), 260
- Morphologic and histochemical evidence for occurrence of collagenolysis and for role of neutrophilic polymorphonuclear leukocytes during cervical dilation (Junqueira et al.), 273
- Motility and viability, spermatozoal, effect of copper on, evaluated objectively with aid of multiple-exposure photography method (Makler and Zinder), 156
- Motion, perceptible fetal, clinical significance of (Rayburn), 210
- Movements, fetal, fetal breathing and, effects of maternal cigarette smoking on (Thaler, Goodman, and Dawes), 282
- Mucosa, human fallopian tube, toxin for: gonococcal lipopolysaccharide (Gregg, Melly, and McGee), 981
- Muscle length (preload), inotropic state and, interaction of force-interval relationship with, II. Biophysics of developing heart (Anderson, Manning, and Crenshaw), 44
- Mycoplasma hominis* and *Chlamydia trachomatis*, experimental pelvic inflammatory disease provoked by, in grivet monkeys (Møller, Freundt, and Mårdh), 990
- Myomas of uterus in pregnancy: Ultrasonographic follow-up (Muram, Gillieson, and Walters), 16
- Myometrial activity and sleep state and breathing, relationship between, in fetal sheep throughout last third of gestation (Nathanielsz et al.), 653
- Myometrium of women, presence of gap junctions in, during various stages of menstruation (Garfield and Hayashi), 569

## N

- Neisseria gonorrhoeae* colony phenotypes, scanning electron microscopy of attachment of, to surfaces of human genital epithelia (Draper et al.), 818
- of same principal outer membrane antigenic type, gonococcal salpingitis is less likely to recur with (Buchanan et al.), 978
- in vitro modeling of acute salpingitis caused by (Draper et al.), 996
- Neonatal lamb, mechanisms of beat-to-beat variability in heart rate of. I. Influence of autonomic nervous system (Zugaib et al.), 444
- II. Effects of hypoxia (Zugaib et al.), 453
- respiratory distress, intravenous dexamethasone for prevention of: Prospective controlled study (Young et al.), 203
- serum, inhibitory concentrations in: Transplacental ampicillin (Kraybill, Chaney, and McCarthy), 793
- sinusoidal heart rate pattern, fetal and, significance of: Further clinical observations in Rh incompatibility (Elliott et al.), 227 (Comm. in brief)
- transport, maternal versus: Perinatal transport to regional perinatal center in metropolitan area (Modanlou et al.), 1157
- Neoplasia, gestational trophoblastic, late recurrences of (Vaughn, Surwit, and Hammond), 73
- thyroid function in: Evidence that thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of choriocarcinoma (Nisula and Taliadouros), 77
- vaginal intraepithelial: Biologic aspects and treatment with topical 5-fluorouracil and carbon dioxide laser (Petrilli et al.), 321
- Nervous system, autonomic, influence of. I. Mechanisms of beat-to-beat variability in heart rate of neonatal lamb (Zugaib et al.), 444
- Neurological maturation, possible acceleration of, following high-risk pregnancy (Amiel-Tison), 303
- Neuropeptide vasoactive intestinal polypeptide, relaxation of human female genital sphincters by (Wallis et al.), 337
- Neutrophilic polymorphonuclear leukocytes, morphologic and histochemical evidence for occurrence of collagenolysis and for role of, during cervical dilation (Junqueira et al.), 273
- Newborn anthropometric data, comparative, in symmetric versus asymmetric intrauterine growth retardation (Crane and Kopta), 518
- Nodes, para-aortic lymph, benign glandular inclusions in: Cause for false positive lymphangiography (Schneider, Walsh, and Goplerud), 350 (Comm. in brief)
- Nonstress testing (Weingold, Yonekura, and O'Kieffe), 195
- Northwestern University multihospital twin study. I. Description of 588 twin pregnancies and associated pregnancy loss, 1971 to 1975 (Keith et al.), 781

## O

- Obesity, energy consumption, and cigarette smoking, maternal, relation of, to infant size (Haworth et al.), 1185
- Obstetric parameters, relationship of, to concentration of pregnancy-associated plasma protein A (Bischof, Hughes, and Klopfer), 494
- ultrasound, Trendelenburg position for (Hill and Breckle), 1229 (Comm. in brief)

- Obstetrician's opportunity: Translating "breast is best" from theory to practice (Winikoff and Baer), 105 (Current developments)
- OCA, human ovarian tumor-associated antigen, study of ovarian cancer patients using radioimmunoassay for (Knauf and Urbach), 1222 (Comm. in brief)
- Oophorectomy, hysterectomy and, subdermal estradiol pellets following (Lobo et al.), 714
- Operations, second-look, in ovarian cancer (Schwartz and Smith), 1124
- Operative laparoscopy, technical progress in pelvic surgery via (Semm and Mettler), 121
- Oral contraceptive-induced chorea (Kaplinksky, Thaler, and Frankl), 237 (Comm. in brief)
- and vaginal administration of estriol to postmenopausal women, plasma estriol and its conjugates following: Correlations with gonadotropin levels (Schiff et al.), 1137
- Ovarian artery blood flow, uterine and, in rhesus monkey near term (Abitbol, Demeter, and Benarosh), 414
- cancer, early primary diagnosis of, and detection of recurrence by serum cystine aminopeptidase assay (Kalinkov and Buchholz), 1148
- patients, study of, using radioimmunoassay for human ovarian tumor-associated antigen OCA (Knauf and Urbach), 1222 (Comm. in brief)
- second-look operations in (Schwartz and Smith), 1124
- Stage I, role of adjuvant therapy in (Hreschysyn et al.), 139
- disease, polycystic, incomplete 21-hydroxylase deficiency mimicking, adult manifestation of congenital adrenal hyperplasia due to (Lobo and Goebelsmann), 720
- progesterone receptor, human, evidence for (Jacobs, Suchocki, and Smith), 332
- Ovary, human, receptor-like binding proteins for testosterone and progesterone in (Milwidsky et al.), 93
- postmenopausal, steroid secretion by (Longcope, Hunter, and Franz), 564
- Oviduct and uterus, murine, bacterial clearance in, I. Host defenses in acute pelvic inflammatory disease (Chow, Carlson, and Sorrell), 1003
- Ovulation and defined changes in concentration of plasma estradiol-17 $\beta$ , luteinizing hormone, follicle-stimulating hormone, and progesterone, temporal relationships between, I. Probit analysis (World Health Organization Task Force), 383
- Oxytocin challenge test, blind, and perinatal outcome (Staisch, Westlake, and Bashore), 399
- levels, plasma, and disappearance rate after buccal Pitocin (Dawood, Ylikorkala, and Fuchs), 20
- P
- Papers of Society for Gynecologic Investigation, 599-726
- Para-aortic lymph nodes, benign glandular inclusions in: Cause for false positive lymphangiography (Schneider, Walsh, and Goplerud), 350 (Comm. in brief)
- lymphocyst (Helmkamp et al.), 395
- Pasteurella multocida* septicemia and peritonitis, first reported case of, during pregnancy: Human pasteurellosis (Kam et al.), 351 (Comm. in brief)
- Pasteurellosis, human: First reported case of *Pasteurella multocida* septicemia and peritonitis during pregnancy (Kam et al.), 351 (Comm. in brief)
- Pathogenesis and microbiology of acute salpingitis as determined by laparoscopy: what is appropriate site to sample? (Sweet et al.), 985
- Pelvic infections, acute, clinical aspects of progressive stages of (Cooperman and Ruiz), 1026
- etiology of, treated by gynecologic service of Kasturba Hospital, Delhi, India (Kocher), 872
- following gynecologic procedures in Bangladesh (Begum), 875
- inflammatory disease, 1980 (St. John, Brown, and Tyler), 845 (Editorial)
- acute, differential diagnosis of (Jacobson), 1006
- host defenses in, I. Bacterial clearance in murine uterus and oviduct (Chow, Carlson, and Sorrell), 1003
- incidence, prevalence, and trends of, and consequences in industrialized countries (Weström), 880
- pattern of, in abortion-related admissions (Sinnathuray et al.), 868
- among women presenting to emergency rooms of hospitals in Massachusetts (O'Hare, Fiumara, and McCormack), 919
- and consequences in developing world (Muir and Belsey), 913
- economic consequences of, in United States (Curran), 848

Pelvic inflammatory disease—cont'd

- etiologic factors in, in Sudanese women (Rushwan), 877
- etiology of, and contraception: new perspectives (Senanayake and Kramer), 852
- experimental, provoked by *Chlamydia trachomatis* and *Mycoplasma hominis* in grivet monkeys (Møller, Freundt, and Mårdh), 990
- gonococcal: case-finding observations (Potterat et al.), 1101
- infection in women with, in Lusaka, Zambia (Ratnam, Din, and Chatterjee), 965
- and gonorrhea, trends for, in England and Wales and for gonorrhea in defined population (Adler), 901
- or infertility with tubal obstruction, microbiology of specimens obtained by laparoscopy from controls and from patients with: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022
- International Symposium on, 845-1112
- microbiologic techniques for diagnosis of, in developing countries (Osoba), 1091
- problems and approaches to control and surveillance of sexually transmitted agents associated with, in United States (Brown and Wiesner), 1096
- in surveillance and control of sexually transmitted agents associated with, in Africa (Nsanze), 1088
- proposals for surveillance and control of sexually transmitted diseases associated with, in South America (de la Torre), 1078
- of surveillance and control of sexually transmitted agents associated with, in Far East (Rajan), 1071
- and puerperal sepsis in Ethiopia, I. Etiology (Perine et al.), 969
- II. Treatment (Duncan et al.), 1059
- risk of, among users of intrauterine devices, irrespective of previous pregnancy (Osser, Liedholm, and Sjöberg), 864
- and intrauterine device use (Burkman), 861
- and salpingitis, frequency and distribution of, in short-stay hospitals in United States (Jones, Zaidi, and St. John), 905
- surveillance, prevention, and control of sexually transmitted agents associated with (Meheus), 1064
- treatment of (Rees), 1042
- kidney, accidental puncture of: Rare complication of culdocentesis (Granat et al.), 233 (Comm. in brief)
- surgery, technical progress in, via operative laparoscopy (Semm and Mettler), 121 (Clinical opinion)
- Perinatal distribution, human, of butorphanol (Pittman et al.), 797
- outcome, blind oxytocin challenge test and (Staisch, Westlake, and Bashore), 399
- transport to regional perinatal center in metropolitan area: Maternal versus neonatal transport (Modanlou et al.), 1157
- Peritonitis, *Pasteurella multocida* septicemia and, first reported case of, during pregnancy: Human pasteurellosis (Kam et al.), 351 (Comm. in brief)
- Permeability, human and sheep chorion laeve, to glucose,  $\beta$ -hydroxybutyrate, and glycerol, comparison of (Seeds et al.), 604
- Peroxidase activity in glands and stroma of human endometrium (Holinka and Gurpide), 599
- Phenotypes, *Neisseria gonorrhoeae* colony, scanning electron microscopy of attachment of, to surfaces of human genital epithelia (Draper et al.), 818
- Phosphatidylglycerol, effect of blood in amniotic fluid on detection of (Strassner et al.), 697
- Photography method, multiple-exposure, effect of copper on spermatozoal motility and viability evaluated objectively with aid of (Makler and Zinder), 156
- Physical anomalies, minor, birth weight, and maternal alcohol consumption (Tennes and Blackard), 774
- Pitocin, buccal, plasma oxytocin levels and disappearance rate after (Dawood, Ylikorkala, and Fuchs), 20
- Pituitary adenoma, human prolactin-secreting, monolayer and suspension culture of (Kletzky et al.), 660
- prolactin-secreting, use of thyrotropin-releasing hormone in distinguishing (Marrs, Bertolli, and Kletzky), 620
- disease, hypothalamic and, response to repetitive luteinizing hormone-releasing hormone stimulation in (Wentz and Andersen), 364
- function, anterior, impact of acute surgical stress on, in female subjects (Adashi et al.), 609
- Placenta(s), diabetic and toxemic term, glycosaminoglycan patterns in (Wasserman et al.), 769

## Placenta(s)—cont'd

- human, early steps in prostaglandin metabolism in (Jarabak), 534
- steroid concentrations and  $\Delta^5,3\beta$ -hydroxysteroid dehydrogenase activity in (Ferre et al.), 500
- normal human, changes in glycosaminoglycan composition of, with maturation (Wasserman et al.), 763
- Placental cells, human, in culture, effect of adrenergic agonists on progesterone production by (Caritis and Zeleznik), 677
- and endometrial  $17\beta$ -estradiol dehydrogenase, human, apparent immunologic nonidentity of (Marovitz et al.), 643
- lactogen, human, pregnancy-specific  $\beta_2$ -glycoprotein, and human chorionic gonadotropin, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- size during early pregnancy and fetal outcome: Preliminary report of sequential ultrasonographic study (Hoogland, de Haan, and Martin), 441
- Planning, natural family, in Colombia, comparative evaluation of two methods of (Medina et al.), 1142
- Plasma estradiol- $17\beta$ , luteinizing hormone, follicle-stimulating hormone, and progesterone, temporal relationships between ovulation and defined changes in concentration of. I. Probit analysis (World Health Organization Task Force), 383
- estriol and its conjugates following oral and vaginal administration of estriol to postmenopausal women: Correlations with gonadotropin levels (Schiff et al.), 1137
- incubated, of pregnant rabbits, increased pressor activity in (Katz, Gordon, and Creasy), 741
- levels of deoxycorticosterone throughout pregnancy of normal women and women who developed pregnancy-induced hypertension. II. Hormone production during pregnancy in primigravid patient (Parker et al.), 626
- maternal, cord blood, and amniotic fluid, analysis of, for human breast gross cystic disease fluid protein (Haagensen et al.), 25
- oxytocin levels and disappearance rate after buccal Pitocin (Dawood, Ylikorkala, and Fuchs), 20
- protein A, pregnancy-associated, relationship of obstetric parameters to concentration of (Bischof, Hughes, and Klopfer), 494
- and urine, prostaglandin  $F_{2\alpha}$  metabolites in, during pseudopregnancy in rabbit (Sato et al.), 748
- volume expansion in treatment of pre-eclampsia (Sehgal and Hitt), 165
- Pneumonia, fatal influenzal, in pregnancy: Failure to demonstrate transplacental transmission of influenza virus (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
- $PO_2$  measurement, continuous transcutaneous and continuous intravascular, comparison of, in fetal sheep (Jansen et al.), 670
- Polycystic ovarian disease, incomplete  $21$ -hydroxylase deficiency mimicking, adult manifestation of congenital adrenal hyperplasia due to (Lobo and Goebelsmann), 720
- Polymorphonuclear leukocytes, neutrophilic, morphologic and histochemical evidence for occurrence of collagenolysis and for role of, during cervical dilation (Junqueira et al.), 273
- Polypeptide, neuropeptide vasoactive intestinal, relaxation of human female genital sphincters by (Wallis et al.), 337
- Position, Trendelenburg, for obstetric ultrasound (Hill and Breckle), 1229 (Comm. in brief)
- Postmenopausal ovary, steroid secretion by (Longcope, Hunter, and Franz), 564
- women, benign cystic teratomas in (Gordon et al.), 1120
- plasma estriol and its conjugates following oral and vaginal administration of estriol to: Correlations with gonadotropin levels (Schiff et al.), 1137
- with and without endometrial carcinoma, serum sex hormone-binding globulin capacity and percentage of free estradiol in (Niskier et al.), 637
- Postpartum lymphocytic thyroiditis in American women: Spectrum of thyroid dysfunction (Fein, Goldman, and Weintraub), 504
- Postural blood pressure differences in pregnancy (Van Dongen et al.), 1
- Pre-eclampsia, plasma volume expansion in treatment of (Sehgal and Hitt), 165
- Pregnancy (pregnancies)—associated plasma protein A, relationship of obstetric parameters to concentration of (Bischof, Hughes, and Klopfer), 494

## Pregnancy (pregnancies)—cont'd

- automated erythrocytapheresis for sickle cell anemia during (Key et al.), 731
- complicated by major hemoglobinopathy, red cell exchange in (Keeling et al.), 185
- dichorionic twin, study of: Evidence that fetal membranes are not involved in cortisol metabolism (López Bernal et al.), 1168
- early, placental size during, and fetal outcome: Preliminary report of sequential ultrasonographic study (Hoogland, de Haan, and Martin), 441
- tularemia immunization in (Albrecht, Cefalo, and O'Brien), 1226 (Comm. in brief)
- electrocardiographic changes induced by suction curettage for elective termination of (Mabee, Dunn, and Sherrer), 181
- fatal influenzal pneumonia in: Failure to demonstrate transplacental transmission of influenza virus (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
- first reported case of *Pasteurella multocida* septicemia and peritonitis during: Human pasteurellosis (Kam et al.), 351 (Comm. in brief)
- high-risk, possible acceleration of neurological maturation following (Amiel-Tison), 303
- hormone production during, in primigravid patient. II. Plasma levels of deoxycorticosterone throughout pregnancy of normal women and women who developed pregnancy-induced hypertension (Parker et al.), 626
- human, prolactin and renin-aldosterone axis in (Ho Yuen and Korn), 738
- hypertensive, fluorescein angiography in (Donkers and Jansonijs), 461 (Comm. in brief)
- molar, hemodynamic observations in evacuation of (Cotton et al.), 6
- myomas of uterus in: Ultrasonographic follow-up (Muram, Gillespie, and Walters), 16
- outcome of, in sickle cell anemia and sickle cell-hemoglobin C disease (Milner, Jones, and Döbler), 239
- postural blood pressure differences in (Van Dongen et al.), 1
- previous, risk of pelvic inflammatory disease among users of intrauterine devices, irrespective of (Osser, Liedholm, and Sjöberg), 864
- specific  $\beta_2$ -glycoprotein, evaluation of: Trophoblastic disease monitoring (O'Brien et al.), 313
- human chorionic gonadotropin, and human placental lactogen, interrelationships of, throughout normal human gestation (Braunstein et al.), 1205
- as prognostic indicator in complications of early pregnancy (Ho and Jones), 253
- surgery during, and fetal outcome (Brodsky et al.), 1165
- and systemic lupus erythematosus (Houser et al.), 409
- 588 twin, and associated pregnancy loss, description of, 1971 to 1975. I. Northwestern University multihospital twin study (Keith et al.), 781
- twin, sonar cephalometry in: Discordancy of biparietal diameter after 28 weeks' gestation (Leveno et al.), 615
- Pregnant guinea pig, unstressed, distribution of cardiac output in (Peeters, Grutters, and Martin), 1177
- rabbits, increased pressor activity in incubated plasma of (Katz, Gordon, and Creasy), 741
- Premature labor, estimation of success in treatment of: Applicability of prolongation index in double-blind, controlled, randomized trial (Penney and Daniell), 345 (Comm. in brief)
- threatened, suppression of, by administration of cortisol and  $17\alpha$ -hydroxyprogesterone caproate: Comparison with ritodrine (Kauppila et al.), 404
- rupture of membranes, C-reactive protein as predictor of infectious morbidity with (Evans et al.), 648
- Prenatal determination of female fetus by ultrasound: "Female echo" (Schotten and Giese), 463 (Comm. in brief)
- Pressor activity, increased, in incubated plasma of pregnant rabbits (Katz, Gordon, and Creasy), 741
- Primigravid patient, I-5 radiculopathy secondary to uterine leiomyoma in (Helfferman, Fraser, and Purdy), 460 (Comm. in brief)
- hormone production during pregnancy in. II. Plasma levels of deoxycorticosterone throughout pregnancy of normal women and women who developed pregnancy-induced hypertension (Parker et al.), 626
- Progestational steroids, suppression of human chorionic gonadotropin by (Wilson, Jawad, and Dickson), 708

- Progesterone, estradiol-17 $\beta$ , luteinizing hormone, and follicle-stimulating hormone, plasma, temporal relationships between ovulation and defined changes in concentration of. I. Probit analysis (World Health Organization Task Force), 383
- production by human placental cells in culture, effect of adrenergic agonists on (Caritis and Zeleznik), 677
- receptor, human ovarian, evidence for (Jacobs, Suchocki, and Smith), 332
- testosterone and, receptor-like binding proteins for, in human ovary (Milwidsky et al.), 93
- Progestogen-dependent endometrial protein in women: Tissue concentration in relation to developmental stage and to serum hormone levels (Joshi et al.), 1131
- Prolactin, decidual production of, in late gestation: Further evidence for decidual source of amniotic fluid prolactin (Rosenberg, Maslar, and Riddick), 681
- level, stable, after enhanced estradiol production following dehydroepiandrosterone sulfate (Kauppila and Ylikorkala), 271
- modulation of dehydroepiandrosterone sulfate secretion (Lobo et al.), 632
- production, stimulatory activity of serum on, by human decidua (Luciano et al.), 665
- and renin-aldosterone axis in human pregnancy (Ho Yuen and Korn), 738
- secreting pituitary adenoma, human, monolayer and suspension culture of (Kletzky et al.), 660
- use of thyrotropin-releasing hormone in distinguishing (Marrs, Bertolli, and Kletzky), 620
- Prolapsed umbilical cord into abdominal cavity in women with previous cesarean section (Lenke and Osterkamp), 1224 (Comm. in brief)
- Prolongation index, applicability of, in double-blind, controlled, randomized trial: Estimation of success in treatment of premature labor (Penney and Daniell), 345 (Comm. in brief)
- Prostaglandin E<sub>2</sub>, vaginal, uterine rupture at term with (Valenzuela et al.), 1223 (Comm. in brief)
- F<sub>2</sub>g, hyperosmolar urea and, midtrimester abortion induced by, in patients with previous cesarean section: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55
- metabolites in plasma and urine during pseudopregnancy in rabbit (Satoh et al.), 748
- metabolism, early steps in, in human placenta (Jarabak), 534
- Protein(s) A, pregnancy-associated plasma, relationship of obstetric parameters to concentration of (Bischof, Hughes, and Klopfer), 494
- C-reactive, as predictor of infectious morbidity with premature rupture of membranes (Evans et al.), 648
- human breast gross cystic disease fluid, analysis of amniotic fluid, maternal plasma, and cord blood for (Haagensen et al.), 25
- progestogen-dependent endometrial, in women: Tissue concentration in relation to developmental stage and to serum hormone levels (Joshi et al.), 1131
- receptor-like binding, for testosterone and progesterone in human ovary (Milwidsky et al.), 93
- Pseudocyesis and sonography (Guzinski and Conrad), 230 (Comm. in brief)
- Pseudopregnancy, prostaglandin F<sub>2</sub>g metabolites in plasma and urine during, in rabbit (Satoh et al.), 748
- Puerperal infectious morbidity: relationship to route of delivery and to antepartum *Chlamydia trachomatis* infection (Wager et al.), 1028
- sepsis, group B streptococcus and (Faro), 1219 (Comm. in brief)
- and pelvic inflammatory disease in Ethiopia. I. Etiology (Perine et al.), 969
- II. Treatment (Duncan et al.), 1059
- Pulmonary fibroleiomyomas, multiple (Tedeschi), 468 (Comm. in brief)
- maturation, fetal, effect of maternal dietary fat on, in rats (Nelson et al.), 466 (Comm. in brief)

# R

- Radical hysterectomy, effect of, on bladder physiology (Forney), 374
- site of recurrence of cervical cancer after (Webb and Symmonds), 813

- Radiculopathy, L-5, secondary to uterine leiomyoma in primigravid patient (Heffernan, Fraser, and Purdy), 460 (Comm. in brief)
- Radioimmunoassay for human ovarian tumor-associated antigen OCA, study of ovarian cancer patients using (Knauf and Urbach), 1222 (Comm. in brief)
- Radiotherapy, significance of residual disease after, in endometrial carcinoma: Clinicopathologic correlation (Macasaet et al.), 557
- Real-time ultrasonography in evaluation of urinary stress incontinence (White et al.), 235 (Comm. in brief)
- Receptor, human ovarian progesterone, evidence for (Jacobs, Suchocki, and Smith), 332
- like binding proteins for testosterone and progesterone in human ovary (Milwidsky et al.), 93
- Red cell exchange in pregnancy complicated by major hemoglobinopathy (Keeling et al.), 185
- Releasing hormone, luteinizing hormone-, stimulation, repetitive, response to, in hypothalamic and pituitary disease (Wentz and Andersen), 364
- thyrotropin-, hormone, use of, in distinguishing prolactin-secreting adenoma (Marrs, Bertolli, and Kletzky), 620
- Renal agenesis, ipsilateral, obstructed hemivagina and, double uterus associated with (Rock and Jones), 339
- Renin-aldosterone axis, prolactin and, in human pregnancy (Ho Yuen and Korn), 738
- Respiratory distress, neonatal, intravenous dexamethasone for prevention of: Prospective controlled study (Young et al.), 203
- Rh incompatibility, further clinical observations in: Significance of fetal and neonatal sinusoidal heart rate pattern (Elliott et al.), 227 (Comm. in brief)
- Ring sterilization, tubal, technical failures in: Incidence, perceived reasons, outcome, and risk factors (Chi, Mumford, and Laufe), 307
- Ritodrine, comparison with: Suppression of threatened premature labor by administration of cortisol and 17 $\alpha$ -hydroxyprogesterone caproate (Kauppila et al.), 404
- infusion, blood anions and electrolytes during, in preterm labor (Kirkpatrick, Quenon, and Desir), 523
- Rupture, premature, of membranes, C-reactive protein as predictor of infectious morbidity with (Evans et al.), 648
- uterine, clinical course and potential for: Midtrimester abortion induced by hyperosmolar urea and prostaglandin F<sub>2</sub>g in patients with previous cesarean section (Atienza, Burkman, and King), 55
- at term with vaginal prostaglandin E<sub>2</sub> (Valenzuela et al.), 1223 (Comm. in brief)

# S

- Sacral colpopexy, abdominal (Cowan and Morgan), 348 (Comm. in brief)
- Sacroiliitis in women—late sequela to acute salpingitis (Hagenfeldt and Szanto), 1039
- Salpingitis, acute, caused by *Neisseria gonorrhoeae*, in vitro modeling of (Draper et al.), 996
- Chlamydia trachomatis* in (Paavonen), 957
- computer-assisted analysis of therapy of (Bell and James), 1048
- differences in some clinical and laboratory parameters in, related to culture and serologic findings (Svensson et al.), 1017
- late sequela to—sacroiliitis in women (Hagenfeldt and Szanto), 1039
- microbiology and pathogenesis of, as determined by laparoscopy: what is appropriate site to sample? (Sweet et al.), 985
- experimental chlamydial, in guinea pig (Sweet et al.), 952
- gonococcal, is less likely to recur with *Neisseria gonorrhoeae* of same principal outer membrane antigenic type (Buchanan et al.), 978
- infectious agents of, their biology, and recent advances in methods of detection, overview of (Mårdh), 933
- laparoscopically verified acute, *Chlamydia trachomatis* infection in patients with (Ripa et al.), 960
- overview of etiology and epidemiology (Holmes, Eschenbach, and Knapp), 893
- and pelvic inflammatory disease, frequency and distribution of, in short-stay hospitals in United States (Jones, Zaidi, and St. John), 905
- Salpingo-oophoritis, suspected, laparoscopy in diagnosis and management of patients with (Ledger), 1012

- Sample, what is appropriate site to? microbiology and pathogenesis of acute salpingitis as determined by laparoscopy (Sweet et al.), 985
- Scanning electron microscopy of attachment of *Neisseria gonorrhoeae* colony phenotypes to surfaces of human genital epithelia (Draper et al.), 818
- Scoring system, simplified intrapartum numerical (Morrison et al.), 175
- Secreting, prolactin-, pituitary adenoma, human, monolayer and suspension culture of (Kletzky et al.), 660  
use of thyrotropin-releasing hormone in distinguishing (Marrs, Bertolli, and Kletzky), 620
- Secretion, dehydroepiandrosterone sulfate, prolactin modulation of (Lobo et al.), 632  
steroid, by postmenopausal ovary (Longcope, Hunter, and Franz), 564
- Sepsis, puerperal, group B streptococcus and (Faro), 1219 (Comm. in brief)  
and pelvic inflammatory disease in Ethiopia. I. Etiology (Perine et al.), 969  
II. Treatment (Duncan et al.), 1059  
*Streptococcus sanguis*, and meningitis: Complication of vacuum extraction (Heath et al.), 343 (Comm. in brief)
- Septicemia, *Pasteurella multocida*, and peritonitis, first reported case of, during pregnancy: Human pasteurellosis (Kam et al.), 351 (Comm. in brief)
- Serologic and culture findings, differences in some clinical and laboratory parameters in acute salpingitis related to (Svensson et al.), 1017
- Serum cystine aminopeptidase assay, early primary diagnosis of ovarian cancer and detection of recurrence by (Kalinkov and Buchholz), 1148  
hormone levels, tissue concentration in relation to developmental stage and to: Progesterone-dependent endometrial protein in women (Johsi et al.), 1131  
neonatal, inhibitory concentrations in: Transplacental ampicillin (Kraybill, Chaney, and McCarthy), 793  
sex hormone-binding globulin capacity and percentage of free estradiol in postmenopausal women with and without endometrial carcinoma (Niskier et al.), 637  
steroid concentrations, maternal, estimation of gestational age and: Total estriol (Penney), 745  
stimulatory activity of, on prolactin production by human decidua (Luciano et al.), 665
- Sex hormone-binding globulin capacity, serum, and percentage of free estradiol in postmenopausal women with and without endometrial carcinoma (Niskier et al.), 637
- Sexually transmitted agents associated with pelvic inflammatory disease, problems and approaches to control and surveillance of, in United States (Brown and Wiesner), 1096  
in surveillance and control of, in Africa (Nsanze), 1088  
in Far East, problems of surveillance and control of (Rajan), 1071  
diseases associated with pelvic inflammatory disease in South America, problems and proposals for control and surveillance of (de la Torre), 1078  
problem(s)-oriented gynecology clinic for patients with (Spence, Smith, and Vaeth), 1109  
and approaches in surveillance and control of: Cuban experience (Werthen, Abreu, and Valdes-Vivo), 1082
- Sickle cell anemia, automated erythrocytapheresis for, during pregnancy (Key et al.), 731  
and sickle cell-hemoglobin C disease, outcome of pregnancy in (Milner, Jones, and Döbler), 239
- Sinusoidal heart rate pattern, fetal and neonatal, significance of: Further clinical observations in Rh incompatibility (Elia et al.), 227 (Comm. in brief)
- Sleep state and breathing, myometrial activity and, relationship between, in fetal sheep throughout last third of gestation (Nathanielsz et al.), 653
- Smoking, cigarette, obesity, and energy consumption, maternal, relation of, to infant size (Haworth et al.), 1185  
maternal cigarette, effects of, on fetal breathing and fetal movements (Thaler, Goodman, and Dawes), 282
- Society for Gynecologic Investigation, papers of, 599-726
- Solution, cefamandole nafate, intrauterine irrigation with, at cesarean section: Preliminary report (Long, Rudd, and Dillon), 755
- Sonar cephalometry in twin pregnancy: Discordancy of biparietal diameter after 28 weeks' gestation (Leveno et al.), 615
- Sonar—cont'd  
fetal abdominal circumference measurements, percentile ranks of (Tamura and Sabbagha), 475 (Clinical opinion)
- Sonography, pseudocystitis and (Guzinski and Conrad), 230 (Comm. in brief)
- South America, problems and proposals for surveillance and control of sexually transmitted diseases associated with pelvic inflammatory disease in (de la Torre), 1078
- Spermatozoal motility and viability, effect of copper on, evaluated objectively with aid of multiple-exposure photography method (Makler and Zinder), 156
- Sphincters, human female genital, relaxation of, by neuropeptide vasoactive intestinal polypeptide (Wallis et al.), 337
- Sphingomyelin, lecithin/, ratio in amniotic fluid obtained vaginally (Goldstein et al.), 232 (Comm. in brief)  
lung fluid, effect of in utero intravenous administration of thyroxine and other hormones on, in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- Standing cystometrogram (Weprin and Zuspan), 369
- Sterilization, tubal lesions subsequent to, and their relation to fertility after attempts at reversal (Vasquez et al.), 86  
ring, technical failures in: Incidence, perceived reasons, outcome, and risk factors (Chi, Mumford, and Laue), 307
- Steroid(s) concentrations and  $\Delta^3,3\beta$ -hydroxysteroid dehydrogenase activity in human placenta (Ferre et al.), 500  
maternal serum, estimation of gestational age and: Total estriol (Penney), 745  
progesterone, suppression of human chorionic gonadotropin by (Wilson, Jawad, and Dickson), 708  
secretion by postmenopausal ovary (Longcope, Hunter, and Franz), 564
- Strength, contraction, measure of, in labor: Area and amplitude (Seitchik), 727
- Streptococcal infection, group B, selective maternal culturing to identify (Pasnick, Mead, and Philip), 480
- Streptococcus, group B, and puerperal sepsis (Faro), 1219 (Comm. in brief)  
*sanguis* sepsis and meningitis: Complication of vacuum extraction (Heath et al.), 343 (Comm. in brief)
- Stress, acute surgical, impact of, on anterior pituitary function in female subjects (Adashi et al.), 609  
incontinence, urinary, real-time ultrasonography in evaluation of (White et al.), 235 (Comm. in brief)
- Stressed (non-) antepartum heart rate monitoring: Implications of decelerations after spontaneous contractions (Visser et al.), 429  
(un-) pregnant guinea pig, distribution of cardiac output in (Peeters, Grutters, and Martin), 1177
- Stroma, glands and, of human endometrium, peroxidase activity in (Holinka and Gurdip), 599
- Subdermal estradiol pellets following hysterectomy and oophorectomy (Lobo et al.), 714
- Suction curettage for elective termination of pregnancy, electrocardiographic changes induced by (Mabee, Dunn, and Sherrer), 181
- Sudanese women, etiologic factors in pelvic inflammatory disease in (Rushwan), 877
- Surgery during pregnancy and fetal outcome (Brodsky et al.), 1165  
pelvic, technical progress in, via operative laparoscopy (Semm and Mettler), 121 (Clinical opinion)
- Surgical stress, acute, impact of, on anterior pituitary function in female subjects (Adashi et al.), 609
- Survival in patients and matched controls, comparison of: Granulosa cell tumors (Björkholm), 329
- Suspension culture, monolayer and, of human prolactin-secreting pituitary adenoma (Kletzky et al.), 660
- Syndrome, Fitz-Hugh-Curtis, *Chlamydia trachomatis* infection in (Wager et al.), 1034
- Systemic lupus erythematosus, pregnancy and (Houser et al.), 409

Term—cont'd

- uterine and ovarian artery blood flow in rhesus monkey near (Abitbol, Demeter, and Benarosh), 414
- rupture at, with vaginal prostaglandin E<sub>2</sub> (Valenzuela et al.), 1223 (Comm. in brief)
- Test, blind oxytocin challenge, and perinatal outcome (Staisch, Westlake, and Bashore), 399
- Testing, antepartum fetal heart rate, alternative to (Rayburn et al.), 223 (Current investigation)
- nonstress (Weingold, Yonekura, and O'Kieffe), 195
- Testosterone and progesterone, receptor-like binding proteins for, in human ovary (Milwidsky et al.), 93
- Thyroid dysfunction, spectrum of: Postpartum lymphocytic thyroiditis in American women (Fein, Goldman, and Weintraub), 504
- function in gestational trophoblastic neoplasia: Evidence that thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of choriocarcinoma (Nisula and Taliadourous), 77
- Thyroiditis, postpartum lymphocytic, in American women: Spectrum of thyroid dysfunction (Fein, Goldman, and Weintraub), 504
- Thyrotoxicosis of choriocarcinoma, evidence that thyrotropic activity of chorionic gonadotropin mediates: Thyroid function in gestational trophoblastic neoplasia (Nisula and Taliadourous), 77
- Thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of choriocarcinoma, evidence that: Thyroid function in gestational trophoblastic neoplasia (Nisula and Taliadourous), 77
- Thyrotropin-releasing hormone, use of, in distinguishing prolactin-secreting adenoma (Marrs, Bertolli, and Kletzky), 620
- Thyroxine and other hormones, effect of, in utero intravenous administration of, on lung fluid lecithin/sphingomyelin ratio in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- Time-lapse study of normal human trophoblast in vitro (Lueck and Aladjem), 288
- Tissue concentration in relation to developmental stage and to serum hormone levels: Progesterone-dependent endometrial protein in women (Joshi et al.), 1131
- Topical 5-fluorouracil and carbon dioxide laser, biologic aspects and treatment with: Vaginal intraepithelial neoplasia (Petrilli et al.), 321
- Toxemia, severe, hemodynamics in patients with, during labor and delivery (Rafferty and Berkowitz), 263
- Toxemic term placentas, diabetic and, glycosaminoglycan patterns in (Wasserman et al.), 769
- Toxin for human fallopian tube mucosa: gonococcal lipopolysaccharide (Gregg, Melly, and McGee), 981
- Toxoplasmosis, congenital, what can be done to prevent (Wilson and Remington), 357 (Clinical opinion)
- Transcutaneous, continuous, and continuous intravascular Po<sub>2</sub> measurement, comparison of, in fetal sheep (Jansen et al.), 670
- Transfusion(s), intrauterine, modified technique for monitoring fetal heart rate during (Schiffrin and Platt), 1220 (Comm. in brief)
- ultrasound-facilitated (Acker et al.), 1200
- Transplacental ampicillin: Inhibitory concentrations in neonatal serum (Kraybill, Chaney, and McCarthy), 793
- transmission of influenza virus, failure to demonstrate: Fatal influenza pneumonia in pregnancy (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
- Transport, perinatal, to regional perinatal center in metropolitan area: Maternal versus neonatal transport (Modanlou et al.), 1157
- Trendelenburg position for obstetric ultrasound (Hill and Breckle), 1229 (Comm. in brief)
- Triacylglycerol lipase activity, characterization of, in human amniotic fluid (Merger et al.), 68
- Trichomonas vaginalis*, three metronidazole-resistant strains of, from United States (Müller et al.), 808
- Trimester, first-, fetal chromosomal diagnosis using endocervical lavage: Negative evaluation (Goldberg et al.), 436
- second-, induced abortion, epidural morphine analgesia in (Magora et al.), 260
- Tritiated water exchange in human uterine cavity (Azar, Bernstein, and Shaw), 833
- Trophoblast antigens, human, maternal and fetal immune responses to (Taylor), 293
- normal human, time-lapse study of, in vitro (Lueck and Aladjem), 288

- Trophoblastic disease monitoring: Evaluation of pregnancy-specific  $\beta_2$ -glycoprotein (O'Brien et al.), 313
- malignancies, gestational, utility of assay of alpha subunit of human chorionic gonadotropin in management of (Quigley, Tyrey, and Hammond), 545
- neoplasia, gestational, late recurrences of (Vaughn, Surwit, and Hammond), 73
- thyroid function in: Evidence that thyrotropic activity of chorionic gonadotropin mediates thyrotoxicosis of choriocarcinoma (Nisula and Taliadourous), 77
- Tubal lesions subsequent to sterilization and their relation to fertility after attempts at reversal (Vasquez et al.), 86
- obstruction, microbiology of specimens obtained by laparoscopy from controls and from patients with pelvic inflammatory disease and infertility with: *Chlamydia trachomatis* and *Ureaplasma urealyticum* (Henry-Suchet et al.), 1022
- ring sterilization, technical failures in: Incidence, perceived reasons, outcome, and risk factors (Chi, Mumford, and Laufe), 307
- Tube mucosa, human fallopian, toxin for: gonococcal lipopolysaccharide (Gregg, Melly, and McGee), 981
- Tuberculous, genital, in women (Falk, Ludviksson, and Agren), 974
- Tuboovarian abscess, contraceptive practice and (Edelman and Berger), 541
- retrospective review (Ginsburg et al.), 1055
- Tularemia immunization in early pregnancy (Albrecht, Cefalo, and O'Brien), 1226 (Comm. in brief)
- Tumor(s), granulosa cell: Comparison of survival in patients and matched controls (Björkholm), 329
- Tumor, human ovarian, -associated antigen OCA, study of ovarian cancer patients using radioimmunoassay for (Knauf and Urbach), 1222 (Comm. in brief)
- Twin gestations, genetic amniocentesis in (Elias et al.), 169
- pregnancy (pregnancies), dichorionic, study of: Evidence that fetal membranes are not involved in cortisol metabolism (López Bernal et al.), 1168
- sonar cephalometry in: Discordancy of biparietal diameter after 28 weeks' gestation (Leveno et al.), 615
- study, Northwestern University multihospital. I. Description of 588 twin pregnancies and associated pregnancy loss, 1971 to 1975 (Keith et al.), 781

U

- Uganda, rural, gonorrhea and female infertility in (Arya, Taber, and Nsanze), 929
- Ultrasonic diagnosis of excessive fetal growth, detection of gestational diabetes by means of (Grandjean et al.), 790
- Ultrasonographic biparietal diameters, serial, for prediction of estimated date of confinement (O'Brien, Coddington, and Cefalo), 467 (Comm. in brief)
- diagnosis of fetal cystic hygroma (O'Brien, Cefalo, and Bair), 464 (Comm. in brief)
- follow-up: Myomas of uterus in pregnancy (Muram, Gillieson, and Walters), 16
- study, sequential, preliminary report of: Placental size during early pregnancy and fetal outcome (Hoogland, de Haan, and Martin), 441
- Ultrasonography, real-time, in evaluation of urinary stress incontinence (White et al.), 235 (Comm. in brief)
- Ultrasound characteristics and differential diagnosis: Fetal cranial and craniocervical masses (Sabbagha et al.), 511
- facilitated intrauterine transfusions (Acker et al.), 1200
- measurement of fetal limb bones (Queenan, O'Brien, and Campbell), 297
- obstetric, Trendelenburg position for (Hill and Breckle), 1229 (Comm. in brief)
- prenatal determination of female fetus by: "Female echo" (Schotten and Giese), 463 (Comm. in brief)
- Umbilical blood flow response to embolization of uterine circulation (Clapp et al.), 60
- cord, prolapsed, into abdominal cavity in woman with previous cesarean section (Lenke and Osterkamp), 1224 (Comm. in brief)
- pure fetal blood from, obtained at fetoscopy: Experience with 125 consecutive cases (MacKenzie and Maclean), 1214
- venous blood flow and its distribution before and during autonomic blockade in fetal lambs (Edelstone et al.), 703
- United States, economic consequences of pelvic inflammatory disease in (Curran), 848

## United States—cont'd

- frequency and distribution of salpingitis and pelvic inflammatory disease in short-stay hospitals in (Jones, Zaidi, and St. John), 905
- problems and approaches to control and surveillance of sexually transmitted agents associated with pelvic inflammatory disease in (Brown and Wiesner), 1096
- three metronidazole-resistant strains of *Trichomonas vaginalis* from (Müller et al.), 808
- Urban hospital, acceptance of amniocentesis by low-income patients in (Marion et al.), 11
- Urea, hyperosmolar, and prostaglandin  $F_{2\alpha}$ , midtrimester abortion induced by, in patients with previous cesarean section: Clinical course and potential for uterine rupture (Atienza, Burkman, and King), 55
- Urinary bladder fullness, effect of, on fundal height measurements (Worthen and Bustillo), 759
- stress incontinence, real-time ultrasonography in evaluation of (White et al.), 235 (Comm. in brief)
- Urine, plasma and, prostaglandin  $F_{2\alpha}$  metabolites in, during pseudopregnancy in rabbit (Satoh et al.), 748
- Uterine cavity, human, tritiated water exchange in (Azar, Bernstein, and Shaw), 833
- circulation, umbilical blood flow response to embolization of (Clapp et al.), 60
- leiomyoma, L-5 radiculopathy secondary to, in primigravid patient (Heffernan, Fraser, and Purdy), 460 (Comm. in brief)
- and ovarian artery blood flow in rhesus monkey near term (Abitbol, Demeter, and Benarosh), 414
- rupture, clinical course and potential for: Midtrimester abortion induced by hyperosmolar urea and prostaglandin  $F_{2\alpha}$  in patients with previous cesarean section (Atienza, Burkman, and King), 55
- at term with vaginal prostaglandin  $E_2$  (Valenzuela et al.), 1223 (Comm. in brief)
- Utero, fetal death in, diagnosis of, with amniotic fluid creatine kinase (Stempel and Lott), 1173
- intravenous administration in, of thyroxine and other hormones, effect of, on lung fluid lecithin/sphingomyelin ratio in fetal lamb (Nwosu et al.), 459 (Comm. in brief)
- Uterus, double, associated with obstructed hemivagina and ipsilateral renal agenesis (Rock and Jones), 339
- (*Macaca mulatta*), primate, biorhythms of, during labor and delivery (Harbert and Spisso), 686
- myomas of, in pregnancy: Ultrasonographic follow-up (Muram, Gillieson, and Walters), 16
- and oviduct, murine, bacterial clearance in, I. Host defenses in acute pelvic inflammatory disease (Chow, Carlson, and Sorrell), 1003
- V
- Vacuum extraction, complication of: *Streptococcus sanguis* sepsis and meningitis (Heath et al.), 343 (Comm. in brief)
- Vaginal administration, oral and, of estriol to postmenopausal women, plasma estriol and its conjugates following: Correlations with gonadotropin levels (Schiff et al.), 1137
- intraepithelial neoplasia: Biologic aspects and treatment with topical 5-fluorouracil and carbon dioxide laser (Petrilli et al.), 321
- prostaglandin  $E_2$ , uterine rupture at term with (Valenzuela et al.), 1223 (Comm. in brief)
- Vaginally, lecithin/sphingomyelin ratio in amniotic fluid obtained (Goldstein et al.), 232 (Comm. in brief)
- Variability, beat-to-beat, heart rate and, analysis of: Interval difference index (van Geijn et al.), 246
- mechanisms of, in heart rate of neonatal lamb. I. Influence of autonomic nervous system (Zugaib et al.), 444
- II. Effects of hypoxia (Zugaib et al.), 453
- Vasoactive intestinal polypeptide, neuropeptide, relaxation of human female genital sphincters by (Wallis et al.), 337
- Venous blood flow, umbilical, and its distribution before and during autonomic blockade in fetal lambs (Edelstone et al.), 703
- Viability, spermatozoal motility and, effect of copper on, evaluated objectively with aid of multiple-exposure photography method (Makler and Zinder), 156
- Virus, influenza, failure to demonstrate transplacental transmission of: Fatal influenzal pneumonia in pregnancy (Ramphal, Donnelly, and Small), 347 (Comm. in brief)
